**The Promiscuity of Network Culture** Robert Payne, 2014-12-05 Liking sharing friending going viral what would it mean to recognize these current modes of media interaction as promiscuous In a contemporary network culture characterized by a proliferation of new forms of intimate mediated sociality this book argues that promiscuity is a new standard of user engagement Intimate relations among media users and between users and their media are increasingly structured by an entrepreneurial logic and put to work for the economic interests of media corporations But these multiple intimacies can also be understood as technologies of promiscuous desire serving both to liberalize mediated social connection and to contain it within normative frames of value Payne brings crucial questions of gender sexuality intimacy and attention back into conversation with recent thinking on network culture and social media identifying the queer undercurrents of these current media dynamics

**The Age of Promiscuity** Doru Pop, 2018-11-15 This book presents an original and engaging look at contemporary popular culture opening with the provocative idea that this is a day and age of complete exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents

and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here *Sluts* Beth
