Daughters Of Absence Transforming A Legacy Of Loss:

Daughters of Absence Mindy Weisel, 2000 Creative daughters transform their parents Holocaust darkness into a celebration of life *Children in the Holocaust and its Aftermath* Sharon Kangisser Cohen, Eva Fogelman, Dalia Ofer, 2017-04-01 The testimonies of individuals who survived the Holocaust as children pose distinct emotional and intellectual challenges for researchers as now adult interviewees recall profound childhood experiences of suffering and persecution they also invoke their own historical awareness and memories of their postwar lives requiring readers to follow simultaneous disparate narratives This interdisciplinary volume brings together historians psychologists and other scholars to explore child survivors accounts With a central focus on the Kestenberg Holocaust Child Survivor Archive s over 1 500 testimonies it not only enlarges our understanding of the Holocaust empirically but illuminates the methodological theoretical and institutional dimensions of this unique form of historical record **It's Absence, Presently** John McGreal, 2016-04-20 It's Silence Soundly It's Nothing Seriously and It's Absence Presently continue The It Series published by Matador since *The Book of It* 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago In their aesthetic form the books are a decentred trilogy united together in a new concept of The Bibliograph All three present this new aesthetic object which transcends the narrow limits of the academic bibliography The alphabetical works also share a tripartite structure and identical length The Bibliograph itself is characterised by its strategic place within each book as a whole as well as by the complex variations in meaning of the dominant motifs nothing ness absence and silence which recur throughout the alphabetical entries that constitute the elements of each text It's Nothing Seriously for example addresses the amusing paradox that so much continues to be written today about nothing The aleatory character of the entries in the texts encourage the modern reader to reflect on each theme and to read them in a new way The reader is invited as well to examine their various inter textual relations across given conventional boundaries in the arts and sciences at several levels of physical psychical social reproduction *The Power of Witnessing* Nancy R. Goodman, Marilyn B. Meyers, 2012-08-21 Witnessing comes in as many forms as the trauma that gives birth to it The Holocaust undeniably one of the greatest traumatic events in recent human history still resonates into the twenty first century The echoes that haunt those who survived continue to reach their children and others who did not share the experience directly In what ways is this massive trauma processed and understood both for survivors and future generations The answer as deftly illustrated by Nancy Goodman and Marilyn Meyers lies in the power of witnessing the act of acknowledging that trauma took place coupled with the desire to share that knowledge with others to build a space in which to reveal confront and symbolize it As the contributors to this book demonstrate testimonial writing and memoir artwork poetry documentary theater and even the simple recollection of a memory are ways that honor and serve as forms of witnessing Each chapter is a fusion of narrative and metaphor that exists as evidence of the living mind that

emerges amid the dead spaces produced by mass trauma creating a revelatory transformational space for the terror of knowing and the possibility for affirmation of hope courage and endurance in the face of almost unspeakable evil Additionally the power of witnessing is extended from the Holocaust to contemporary instances of mass trauma and to psychoanalytic treatments proving its efficacy in the dyadic relationship of everyday practice for both patient and analyst The Holocaust is not an easy subject to approach but the intimate and personal stories included here add up to an act of witnessing in and of itself combining the past and the present and placing the trauma in the realm of knowing sharing and understanding

Slochower, 2018-06-13 *Decentering Relational Theory* A Comparative Critique invites relational theorists to contemplate the

influence overlaps and relationship between relational theory and other perspectives Self critique was the focus of De Idealizing Relational Theory Decentering Relational Theory pushes critique in a different direction by explicitly engaging the questions of theoretical and clinical overlap and lack thereof with writers from other psychoanalytic orientations In part this comparison involves critique but in part it does not It addresses issues of influence both bidirectional and unidimensional Our authors took up this challenge in different ways Like our authors in De Idealizing writers who contributed to Decentering were asked to move beyond their own perspective without stereotyping alternate perspectives Instead they seek to expand our understanding of the convergences and divergences between different relational perspectives and those of other theories Whether to locate relational thought in a broader theoretical envelope make links to other theories address critiques leveled at us or push relational thinking forward our contributors thought outside the box The kinds of comparisons they were asked to make were challenging We are grateful to them for having taken up this challenge Decentering Relational Theory A Comparative Critique will appeal to psychoanalysts and psychoanalytic psychotherapists across the theoretical spectrum
