David Halberstam The Best And The Brightest:

The Best and the Brightest David Halberstam, 2002-03-26 David Halberstam's masterpiece the defining history of the making of the Vietnam tragedy with a new Foreword by Senator John McCain A rich entertaining and profound reading experience The New York Times Using portraits of America's flawed policy makers and accounts of the forces that drove them The Best and the Brightest reckons magnificently with the most important abiding question of our country's recent history Why did America become mired in Vietnam and why did we lose As the definitive single volume answer to that question this enthralling book has never been superseded It is an American classic Praise for The Best and the Brightest The most comprehensive saga of how America became involved in Vietnam It is also the Iliad of the American empire and the Odyssey of this nation's search for its idealistic soul The Best and the Brightest is almost like watching an Alfred Hitchcock thriller The Boston Globe Deeply moving We cannot help but feel the compelling power of this narrative Dramatic and tragic a chain of events overwhelming in their force a distant war embodying illusions and myths terror and violence confusions and courage blindness pride and arrogance Los Angeles Times A fascinating tale of folly and self deception An absorbing detailed and devastatingly caustic tale of Washington in the days of the Caesars The Washington Post Book World Seductively readable It is a staggeringly ambitious undertaking that is fully matched by Halberstam's performance This is in all ways an admirable and necessary book Newsweek A story every American should read St Louis Post Dispatch [The Best and the Brightest](#) David Halberstam, 1992 Chronicle of the war in Vietnam and the limits of American power and politics in the 1950s and 1960s [To Reason Why](#) Jeffrey P. Kimball, 2005-08-11 This book is about the past and continuing debate over the causes of United States involvement in the Vietnam War It brings together readings that best exemplify the widely varying answers that historians political scientists social scientists policymakers journalists and novelists have given to the essential question of American involvement why did the U S intervene diplomatically and militarily in Vietnam between 1945 and 1975 from the Preface To Reason Why breaks new ground in covering and analyzing this issue Kimball has gathered together thirty eight readings including speeches interviews and articles that best exemplify the conflicting ideas and theories about the U S intervention in Vietnam Among these thirty eight readings are excerpts from David Halberstam Daniel Ellsberg Frances FitzGerald Henry Kissinger Lyndon Johnson and Richard Nixon **The Essence of Desperation** Bryan Riddle, 2018-01-05 Counterinsurgency is a doctrine premised on winning the population of a nation state over to the government's side Counterinsurgency is also associated with a continuing presence of military forces for long periods and significant aid expenditures As such it is a curious strategy to employ in the midst of wars seen as failing and when the population has turned against the conflict This book examines counterinsurgency's emergence in Vietnam Iraq and Afghanistan in order to understand how it is employed in the midst of these perceived war fighting failures In doing so it thinks of strategy as narrative that describes how actions will result in better future effects In so doing this book traces the

ways in which the strategy making process overcomes fragmentation to produce consensus It concludes that through the examination of how actors analogies and narratives are produced and deployed into strategy debates the reasons for counterinsurgency s emergence in crisis periods can be determined This approach enables a better understanding of the dynamics of policy making and how geostrategic change occurs

Strain of Violence Richard Maxwell Brown,1975-01-02 These essays written by leading historian of violence and Presidential Commission consultant Richard Maxwell Brown consider the challenges posed to American society by the criminal turbulent and depressed elements of American life and the violent response of the established order Covering violent incidents from colonial American to the present Brown presents illuminating discussions of violence and the American Revolution black white conflict from slave revolts to the black ghetto riots of the 1960s the vigilante tradition and two of America s most violent regions Central Texas whic

Taxing Wars Sarah Elizabeth Kreps,2018 Why have the wars in Afghanistan and Iraq lasted longer than any others in American history One view is that the move to an all volunteer force and drones have allowed the wars to continue almost unnoticed for years Taxing Wars suggests how Americans bear the burden in treasure has also changed with recent wars financed by debt rather than taxes This shift has eroded accountability and contributed to the phenomenon of perpetual war

Perilous Times Geoffrey R. Stone,2004 Geoffrey Stone s Perilous Times incisively investigates how the First Amendment and other civil liberties have been compromised in America during wartime Stone delineates the consistent suppression of free speech in six historical periods from the Sedition Act of 1798 to the Vietnam War and ends with a coda that examines the state of civil liberties in the Bush era Full of fresh legal and historical insight Perilous Times magisterially presents a dramatic cast of characters who influenced the course of history over a two hundred year period from the presidents Adams Lincoln Wilson Roosevelt and Nixon to the Supreme Court justices Taney Holmes Brandeis Black and Warren to the resisters Clement Vallandigham Emma Goldman Fred Korematsu and David Dellinger Filled with dozens of rare photographs posters and historical illustrations Perilous Times is resonant in its call for a new approach in our response to grave crises

Foreign Policy Motivation Richard W. Cottam,1977-01-15 Foreign policy motivation is a complex mix reflecting the fears and aspirations of publics interest groups bureaucratic sets and important individuals International conflict cannot be resolved without resolving how foreign policy is motivated This book presents a conceptual framework for identifying and weighing foreign policy motives that shape direct and alter foreign policy

American Propaganda from the Spanish-American War to Iraq Steven R. Brydon,2021-11-01 In this book Steven R Brydon analyzes American war propaganda spanning from the Spanish American War through the wars in Afghanistan and Iraq Brydon argues that many of these wars were fought based on false or

misleading narratives beginning with blaming Spain for the sinking of the Maine and continuing most recently with charges that Saddam Hussein had weapons of mass destruction and was involved in the terrorist attacks of September 11. Research has shown that well told stories can affect the public's beliefs, attitudes, and actions, and Brydon has identified some of these recurring stories that have been told to support and sustain each war during this time period. Using Fisher's narrative paradigm, Brydon critically evaluates these war stories to determine if they possessed narrative coherence and fidelity that provided good reasons to go to war rather than simply the appearance of these qualities. The responsibility Brydon stresses is on the media and on academics to view future war narratives through a critical lens in order to best inform the American people. Scholars of media studies, history, military studies, American studies, and international relations will find this book particularly useful.
