**Fundamentals of Nursing: Active Learning for Collaborative Practice - E-Book** Barbara L. Yoost,Lynne R. Crawford,2026-02-04 Nursing Heads are correlated to the Clinical Judgment skills that occur at that stage of the nursing process Clinical chapters contain 1 single episode NGN style case study with the new next generation question types to help them practice for licensure from the beginning of their education Interprofessional collaboration and delegation content appears throughout the text along with new IPE activities that are integrated into the Evolve resources UNIQUE Review and

exam questions tied to learning objectives use a building block style approach that starts at lower Bloom's taxonomy levels in early chapters and builds to more complex levels as readers acquire more knowledge. Emphasis on assignment and delegation covers the differences between them and how and when they're appropriate for an RN. Content on complementary therapies has been integrated throughout the text to reflect the changes to the NCLEX exam. UNIQUE Warm friendly writing style slows down the pace of information to give readers time to critically think and master all fundamental concepts and skills. UNIQUE Building block approach groups topics and concepts together thematically in the order needed for readers to build their knowledge. UNIQUE Objective driven approach presents clearly defined numbered objectives that coordinate with all content and then wrap up with Objective Summaries. UNIQUE Active learning activities are incorporated throughout every chapter to help readers learn to apply chapter content to broader nursing concepts and realistic patient scenarios. UNIQUE Conceptual care mapping is taught and used throughout the text in conjunction with the Conceptual Care Map Creator. Special feature boxes cover the areas of diversity consideration, evidence based practice, informatics, patient education, healthy literacy, health assessment questions, interprofessional collaboration and delegation, ethical and legal practice, home care considerations, safe practice alerts, critical thinking exercises and nursing care guidelines.

**Multimodal Intelligent Sensing in Modern Applications** Masood Ur Rehman, Ahmed Zoha, Muhammad Ali Jamshed, Naeem Ramzan, 2025-02-26  
Discover the design implementation and analytical techniques for multi modal intelligent sensing in this cutting edge text. The Internet of Things (IoT) is becoming ever more comprehensively integrated into everyday life. The intelligent systems that power smart technologies rely on increasingly sophisticated sensors in order to monitor inputs and respond dynamically. Multi modal sensing offers enormous benefits for these technologies but also comes with greater challenges; it has never been more essential to offer energy efficient, reliable, interference free sensing systems for use with the modern Internet of Things. **Multimodal Intelligent Sensing in Modern Applications** provides an introduction to systems which incorporate multiple sensors to produce situational awareness and process inputs. It is divided into three parts: physical design aspects, data acquisition and analysis techniques, and security and energy challenges, which together cover all the major topics in multi modal sensing. The result is an indispensable volume for engineers and other professionals looking to design the smart devices of the future. **Multimodal Intelligent Sensing in Modern Applications** readers will also find a field of multidisciplinary contributors in fields like wireless communications, signal processing and sensor design. Coverage of both software and hardware solutions to sensing challenges. Detailed treatment of advanced topics like efficient deployment, data fusion, machine learning and more. **Multimodal Intelligent Sensing in Modern Applications** is ideal for experienced engineers and designers who need to apply their skills to Internet of Things and 5G/6G networks. It can also act as an introductory text for graduate researchers into understanding the background, design and implementation of various sensor types and data analytics tools.
