Cooper,2013-03-19 First published to acclaim in 1983 this book is set to impact upon the book buying public eager for accounts of this period of World War history Relaying the later operations of 617 Squadron this book steers away from typical accounts of the group which dwell on this predominant feature of their service history 617 Squadron carried some of the most outstanding exploits of the air war out after they had executed their famous Dam s Raid in May 1943 These included special low flying attacks on canals factories rocket sites viaducts and of course the attack on the German battleship Tirpitz The standard set to serve in 617 Squadron is shown in the success of such operations They were led firstly by Wing Commander Bruce Gibson who set this standard followed by Squadron Leader Mick Martin and the incomparable Wing Commander Leonard Cheshire who developed the accuracy of marking and bombing to a very high degree He in turn was succeeded by Wing Commander Willie Tait who led all three attacks on the Tirpitz and from then on was known as Tirpitz Tait All the leaders of the Squadron were outstanding airmen each having more than a hundred operations to his credit This book is a timely reminder that there was a lot more to the Squadron s history than their exploits on the Dams      **Spec Ops** William H. McRaven,2009-02-04 Vice Adm William H McRaven helped to devise the strategy for how to bring down Osama bin Laden and commanded the courageous U S military unit that carried it out on May 1 2011 ending one of the greatest manhunts in history In Spec Ops a well organized and deeply researched study McRaven analyzes eight classic special operations Six are from WWII the German commando raid on the Belgian fort Eben Emael 1940 the Italian torpedo attack on the Alexandria harbor 1941 the British commando raid on Nazaire France 1942 the German glider rescue of Benito Mussolini 1943 the British midget submarine attack on the Tirpitz 1943 and the U S Ranger rescue mission at the Cabanatuan POW camp in the Philippines 1945 The two post WWII examples are the U S Army raid on the Son Tay

POW camp in North Vietnam 1970 and the Israeli rescue of the skyjacked hostages in Entebbe Uganda 1976 McRaven who commands a U S Navy SEAL team pinpoints six essential principles of spec ops success simplicity security repetition surprise speed and purpose For each of the case studies he provides political and military context a meticulous reconstruction of the mission itself and an analysis of the operation in relation to his six principles McRaven deems the Son Tay raid the best modern example of a successful spec op which should be considered textbook material for future missions His own book is an instructive textbook that will be closely studied by students of the military arts Maps photos Onze vloot ,1954
