Robert Warden Lee

De Roman Van De Haas:

De roman van 't Madroño-dal, en andere schetsen Bret Harte, 1873 **A Fragmented History** Gijs Willem Tol, 2012 This dissertation presents four methodological case studies that elaborate on the results of two field survey projects the Astura and Nettuno surveys that were carried out by the Groningen Institute of Archaeology GIA The case studies aim at investigating biasing factors that limit the analytical and comparative value of data from archaeological survey in general using these two projects as a suitable testing ground Both surveys carried out between 2003 and 2005 fell within the ambit of the Pontine Region Project PRP a long term research program aimed at the diachronic archaeological investigation of the various landscape units forming this region They covered two contiguous areas situated on the Tyrrhenian seaboard approximately 60 kilometres south of Rome The study area comprises the communal area of the modern town of Nettuno as well as the lower valleys of the Astura and Moscarello rivers see fig 0 1 2 As such it incorporates parts of the hinterland of the ancient towns of Antium and Satricum In chronological terms this dissertation considers a time span of 1300 years from the 6th century BC to the 7th century AD *Nederlandsch Letterkundig Nieuwsblad* , 1843 **Making the Middle Republic** Seth Bernard, Lisa Marie Mignone, Dan-el Padilla Peralta, 2023-04-27 During the fourth and third centuries BCE Roman expansion into Italy reshaped the peninsula s Archaic societies and prompted new political relationships new economic practices and new sociocultural structures Rural landscapes and urban spaces throughout Latium saw intensified use amidst novel principles of land management animal husbandry and architectural design This book offers fresh perspectives on these transformations by embracing a wide range of approaches to Middle Republican history Chapters take up topics and methods ranging from fiscal sociology bioarchaeology comparative slaveries field survey art and architectural history numismatics elite mobility and beyond An emphasis is placed on how developments in this period reshaped not only Rome but also other Latin and Italian societies in complex and often multilinear ways The volume promotes the Middle Republic as a period whose full dynamism is best appreciated at the intersection of diverse lines of inquiry **An Introduction to Roman-Dutch Law** Robert Warden Lee, 1915 **Gabii through its Artefacts** Laura M. Banducci, Mattia D'Acri, 2023-10-27 This book brings together 15 papers on objects from the excavations of the town of Gabii undertaken since 2007 Objects ranging from the pre Roman to Imperial periods are examined using a mix of approaches making an effort to be sensitive to excavation context and formation processes The Excavations at Wijnaldum Annet Nieuwhof, 2021-01-16 Wijnaldum is nowadays an unassuming rural village in the north of the province of Friesland no more than a small dot on the map of the Netherlands But during the Early Middle Ages this probably was a lively political center a kingdom with intensive contacts with other kingdoms along the North Sea coasts and with the Frankish realm to the south The search for the king that resided at Wijnaldum was the major goal of the excavations that were carried out at the terp Wijnaldum Tjitsma between 1991 and 1993 These excavations yielded a wealth of information although tangible remains of the king or a royal residence

were not found What was found was a lot of pottery The ceramic assemblage from the first Millennium consists of local handmade and imported wheel thrown pottery revealing contacts with the wider world The first results and an overview of the habitation phases were published in 1999 in Volume 1 of The Excavations at Wijnaldum The ceramic assemblage and its consequences for the habitation history of Wijnaldum are the main subjects of this second volume *Reframing the Roman Economy* Dimitri Van Limbergen, Adeline Hoffelinck, Devi Taelman, 2022-11-17 This book focuses on those features of the Roman economy that are less traceable in text and archaeology and as a consequence remain largely underexplored in contemporary scholarship By reincorporating for the first time these long obscured practices in mainstream scholarly discourses this book offers a more complete and balanced view of an economic system that for too long has mostly been studied through its macro economic and large scale and thus archaeologically and textually omnipresent aspects The topic is approached in five thematic sections covering unusual actors and perspectives unusual places of production exigent landscapes of exploitation less visible products and artefacts and divergent views on emblematic economic spheres To this purpose the book brings together a select group of leading scholars and promising early career researchers in archaeology and ancient economic history well positioned to steer this ill developed but fundamental field of the Roman economy in promising new directions *Commentaries on Roman-Dutch Law* Simon van Leeuwen, 1923 Letterkundige Geschiedenis van Vlaanderen Constant Antoon Serrure, 1872
