The Art of Critical Pedagogy Jeffrey Michael Reyes Duncan-Andrade, Ernest Morrell, 2008 This book furthers the discussion concerning critical pedagogy and its practical applications for urban contexts It addresses two looming yet under explored questions that have emerged with the ascendancy of critical pedagogy in the educational discourse 1 What does critical pedagogy look like in work with urban youth and 2 How can a systematic investigation of critical work enacted in urban contexts simultaneously draw upon and push the core tenets of critical pedagogy Addressing the tensions inherent in enacting critical pedagogy between working to disrupt and to successfully navigate oppressive institutionalized structures and between the practice of critical pedagogy and the current standards driven climate *The Art of Critical Pedagogy* seeks to

generate authentic internal and external dialogues among educators in search of texts that offer guidance for teaching for a more socially just world Critiquing the Postcolonial Construct in Chinua Achebe's Novels Ranjana Das

Sarkhel,2018-11-21 Chinua Achebe's novels have always been read as texts from an erstwhile colonised African nation interpreted within the parameters suggested by postcolonial theorists The confines of postcolonial readings have raised questions about when the postcolonial period would end so that writers would no longer need to write back to the empire or rewrite their histories This work explores how Achebe's novels articulate his knowledge of his own people and the manner in which he participates in the politics of representation He critiques the postcolonial methodology and seeks out recovers and provides an alternative narrative of the postcolonial experience and its aftermath even as he seems to be moving beyond it Achebe's narratives do not conform to the postcolonial constructs of history as telling rather than recalling and of nations in terms of states rather than people Achebe combines the techniques available to historians documentation with those of novelists the imaginative re-creation of events for his fictional evocation of the past He emphasises both the African artists role in helping to create a more egalitarian society and that of the act of storytelling as a shaping force in people's lives As he negotiates between his narrative form and realistic subject matter Achebe puts forward a powerful critique of colonisation and its aftermath Achebe represents a canonical voice in the emerging discourse of writers struggling to break free from the clichéd world of anti-imperialism and decolonisation **The Oxford Handbook of Postcolonial Studies** Graham

Huggan,2013-09-12 The Oxford Handbook of Postcolonial Studies is a major reference work which aims to provide informed insights into the possible future of postcolonial studies as well as a comparative overview of the latest developments in the field **The Oxford Handbook of Pauline Studies** Matthew V. Novenson,R. Barry Matlock,2022 Covers the historical

Paul the letters authentic and pseudonymous and the acts canonical and noncanonical Considers traditional approaches alongside more recent approaches including gender race and ethnicity and material culture Written by a diverse international group of experts Assesses the field as it stands and pushes forward into new possibilities for Pauline Studies Book jacket *Handbook of Critical Psychology* Ian Parker,2015-04-17 Choice Recommended Read Critical psychology has developed over time from different standpoints and in different cultural contexts embracing a variety of perspectives This cutting edge and comprehensive handbook values and reflects this diversity of approaches to critical psychology today providing a definitive state of the art account of the field and an opening to the lines of argument that will take it forward in the years to come The individual chapters by leading and emerging scholars plot the development of a critical perspective on different elements of the host discipline of psychology The book begins by systematically addressing each separate specialist area of psychology before going on to consider how aspects of critical psychology transcend the divisions that mark the discipline The final part of the volume explores the variety of cultural and political standpoints that have made critical psychology such a vibrant contested terrain of debate The Handbook of Critical Psychology represents a key resource for

researchers and practitioners across all relevant disciplines It will be of particular interest to students and researchers in psychology psychosocial studies sociology social anthropology and cultural studies and to discourse analysts of different traditions including those in critical linguistics and political theory *Critical Theories in Dark Tourism* Nitasha Sharma, Annaclaudia Martini, Dallen J. Timothy, 2024-12-02 This book facilitates a critical investigation of gaps in theorizing and framing dark tourism by navigating through some onto epistemological issues theoretical entanglements future possibilities and the application of critical theoretical perspectives related to affect and emotions human animal studies postcolonialism feminism trauma studies posthumanism power and identity In doing so it advances the need to connect critical theory pragmatism and contemporary issues of social and global relevance Given the growing body of critical research within tourism studies dark tourism has somewhat lagged behind For example critical tourism researchers have been examining postcolonialism for two decades but dark tourism research has only sporadically engaged with this topic Similarly the issue of gender has been curiously neglected within dark tourism In addition dark tourism research has tended to shy away from the big challenges facing contemporary societies Through its engagement with a range of critical theories this volume not only addresses gaps in the existing dark tourism literature but also moves the debate forward in exciting new directions This volume is well placed to demonstrate to other disciplines and fields that dark tourism research can be critical theoretically grounded and transformative Duncan Light **Postcolonial Theologies: Divinity and Empire P4011**

R5050 Catherine Keller, 2004 A theology in tune with postcolonial theory has the potential to creatively inform and transform ecclesial practice Focusing on the relation of theology to postcolonial theory *Postcolonial Theologies* brings together a wide diversity of authors many of them fresh and exciting theological voices in essays that are stunningly creative and prophetically lucid All essays are theologically constructive not merely deconstructive or critical in their visions for Christianity Forming a sort of doctrinal landscape they emerge under the themes of theological anthropology shaped by ethnicity class and privilege a Christology that intersects the claims of Christ and empire and a Cosmology that imagines a postcolonial world
