Color Atlas Of Turfgrass Weeds By L B McCarty 2008 01 28:

Biology and Management of Problematic Crop Weed Species Bhagirath Chauhan, 2021-09-04 Weeds are the main biological constraint to crop production throughout the year. Uncontrolled weeds could cause 100% yield loss. In Australia, the overall cost of weeds to Australian grain growers was estimated at AU \$3.3 billion annually. In terms of yield losses, weeds amounted to 2.7 million tonnes of grains at a national level. In the USA, weeds cost US \$3.3 billion in lost crop production annually. In India, these costs were estimated to be much higher, US \$11 billion. These studies from different economies suggest that weeds cause substantial yield and economic loss. *Biology and Management of Problematic Weed Species* details the biology of key weed species, providing vital information on seed germination and production as well as factors affecting weed growth. These species include *Chenopodium album*, *Chloris truncata*, and *C. virgate*, *Conyza bonariensis*, and *C. canadensis*, *Cyperus rotundus*, and many more. This information is crucial for researchers and growers to develop integrated weed management (IWM) strategies. Written by leading experts across the globe, this book is an essential read to plant biologists and ecologists, crop scientists, and students and researchers interested in weed science. It provides detailed information on the biology of different key weed species, covers weed seed germination and emergence, and presents the factors affecting weed growth and seed production.

Weed Control in Turf and Ornamentals Alfred J. Turgeon, Lambert Blanchard, McCarty, Nick Christians, 2009. *Weed Control in Turf and Ornamentals* provides thorough coverage of weeds that are important in turfgrass and ornamentals plant communities. The herbicides used in these plant communities are thoroughly treated with respect to their action and metabolism in the plant, their fate in the environment, and proper application methods. Additionally, weed control measures are covered with special emphasis on the safe and effective use of herbicides. Landscape artists or horticulturists.
