Colormute Race Talk Dilemmas In An American School:

Colormute Mica Pollock, 2004 This book considers in unprecedented detail one of the most confounding questions in American racial practice when to speak about people in racial terms Viewing race talk through the lens of a California high school and district Colormute draws on three years of ethnographic research on everyday race labeling in education Based on the author's experiences as a teacher as well as an anthropologist it discusses the role race plays in everyday and policy talk about such familiar topics as discipline achievement curriculum reform and educational inequality Pollock illustrates the wide variations in the way speakers use race labels Sometimes people use them without thinking twice at other moments they avoid them at all costs or use them only in the description of particular situations While a major concern of everyday race talk in schools is that racial descriptions will be inaccurate or inappropriate Pollock demonstrates that anxiously suppressing race words being what she terms colormute can also cause educators to reproduce the very racial inequities they abhor The book assists readers in cultivating a greater understanding of the pitfalls and possibilities of everyday race talk and clarifies previously murky discussions of colorblindness By bridging the gap between theory and practice Colormute will be enormously helpful in fostering ongoing conversations about dismantling racial inequality in America **Because of**

Race Mica Pollock, 2010-10-25 In *Because of Race* Mica Pollock tackles a long standing and fraught debate over racial inequalities in America's schools Which denials of opportunity experienced by students of color should be remedied Pollock exposes raw real time arguments over what inequalities of opportunity based on race in our schools look like today and what if anything various Americans should do about it Pollock encountered these debates while working at the U S Department of Education's Office for Civil Rights in 1999-2001 For more than two years she listened to hundreds of parents advocates educators and federal employees talk about the educational treatment of children and youth in specific schools and districts People debated how children were spoken to disciplined and ignored in both segregated and desegregated districts and how children were afforded or denied basic resources and opportunities to learn Pollock discusses four rebuttals that greeted demands for everyday justice for students of color inside schools and districts She explores how debates over daily opportunity provision exposed conflicting analyses of opportunity denial and harm worth remedying *Because of Race* lays bare our habits of argument and offers concrete suggestions for arguing more successfully toward equal opportunity A

Building Pedagogues Zachary A. Casey, Shannon K. McManimon, 2020-08-01 Antiracist professional development for white teachers often follows a one size fits all model focusing on narrow notions of race and especially white privilege at the expense of more radical analyses of white supremacy Frustrated with this model Zachary A Casey and Shannon K McManimon both white teacher educators developed a two year professional development seminar called RaceWork with eight white practicing teachers committed to advancing antiracism in their classrooms schools and communities Drawing on interviews field notes teacher reflections and classroom observations Building Pedagogues details the program s theoretical and pedagogical foundations Casey and McManimon s unique tripartite approach to race and racism at personal local and structural levels learnings strategies and practical interventions that emerged from the program and the challenges and resistance these teachers faced As the story of RaceWork and a model for implementing it the book concludes by reminding its audience of teachers teacher educators and researchers that antiracist professional development is a continual open ended process The work of building pedagogues is an ongoing process

The Anthropology of Education Policy Angelina E. Castagno, Teresa McCarty, 2017-07-06 Advancing a rapidly growing field of social science inquiry the anthropology of policy this volume extends and solidifies this body of work focusing on education policy Its goal is to examine timely issues in education policy from a critical anthropological ethnographic and comparative perspective and through this to theorize new ways of understanding how policy does its work At the center is a commitment to an engaged anthropology of education policy that uses anthropological knowledge to imagine and foster more equitable and just forms of schooling The authors examine the ways in which education policy processes create reflect and contest regimes of knowledge and power sorting and stratifying people ideas and resources in particular ways In contrast to conventional analyses of policy as text based dictated linear and rational an anthropological perspective positions policy at the interface of top down bottom up and meso level processes and as de facto and de jure Demonstrating how education policy operates as a social cultural and deeply ideological process on the ground each chapter clearly delineates the implications of these understandings for educational access opportunity and equity Providing a single go to source on the disciplinary history theoretical framework methodology and empirical applications of the anthropology of education policy across a range of education topics policy debates and settings the book updates and expands on seminal works in the field carving out an important niche in anthropological studies of public policy

Handbook of Education Policy Research Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co published by Routledge for the American

Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook s over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net>

Unequal Lessons Alexandra Freidus, 2015-08-05 Diversity and racial integration efforts are not sufficient to address educational inequality New York City schools are among the most segregated in the nation Yet over seven decades after the Brown v Board of Education decision New Yorkers continue to argue about whether school segregation matters Amid these debates Alexandra Freidus dives deep into the roots of racial inequality in diversifying schools asking how we can better understand both the opportunities and the limits of school diversity and integration Unequal Lessons is based on six years of observations and interviews with children parents educators and district policymakers about the stakes of racial diversity in New York City schools The book examines what children learn from diversity exploring both the costs and benefits of school integration By drawing on students first hand experiences Freidus makes the case that although a focus on diversity offers many benefits to students it often reinscribes rather than diminishes existing inequalities in school policy and practice The idea of diversity for its own sake is frequently seen as the solution with students of color presumed to benefit from their experiences with white students while schools fail to address structural inequality Though educators and advocates often focus on diversity out of a real desire to make a positive difference in students lives this book makes clear the gaps between good intentions and educational injustice

Adolescent Identity and Schooling Cynthia Hudley, 2015-07-24 Adolescent Identity and Schooling Diverse Perspectives examines a range of issues related to student adjustment and achievement through research on student identity Drawn from leading experts in psychology and sociology it

attends to important contemporary topics in educational and developmental psychology With special attention to how students assess and relate to their own identities this book features chapters on pertinent but under represented identities such as parental identity immigrant identity and model minority identity It blends these new topics with chapters containing the most current perspectives on traditionally covered topics such as race and social class In ten chapters this book provides readers with a comprehensive set of perspectives on the relationship between student identity and success in school making it ideal for education courses on identity in education educational psychology and human development

Innovations in Educational Ethnography George Spindler, Lorie Hammond, 2012-10-12 This volume focuses on and exemplifies how ethnography a research tool devoted to looking at human interaction as a cultural process rather than individual psychology can shed light on educational processes framed by the complex internationalized societies in which we live today Part I offers theoretical chapters about ethnography and examples of innovative ethnography from particular perspectives In Part II the emphasis is on the application of ethnographic approaches to educational settings Each contribution not only takes the reader on a thoughtful and enlightening journey but raises issues that are important to both educators and ethnographers including the relationship of researcher to subject the meaning of participant in participant observation and ways to give voice to disenfranchised players and on the complex ways in which all parties experience identities such as race in the modern world

Innovations in Educational Ethnography Theory Methods and Results is a product of both continuity and change It presents current writings from mentors in the field of ethnography and education as well of the work of their students and of educators engaged in cultural studies of their work In many ways it provides fresh new vistas on the old questions that have always guided ethnographic research and can be used as a survey both of what ethnography has been and what it is becoming This book is the work of many hands and provides excellent examples of trends in both basic and applied ethnography of education These two kinds of work augment and reinforce each other and also represent important current research directions in depth reflection on the process of ethnography itself and an application of its insights to teaching and learning in schools universities and communities No one philosophy guides the contributions to this volume nor were they chosen as exemplary of a particular approach yet foundational understandings and principles of ethnography shine through the work in both predictable and unexpected ways
