New Qing Imperial History Ruth W. Dunnell, Mark C. Elliott, Philippe Foret, James A Millward, 2004-07-31 New Qing Imperial History uses the Manchu summer capital of Chengde and associated architecture art and ritual activity as the focus for an exploration of the importance of Inner Asia and Tibet to the Qing Empire 1636 1911 Well known contributors argue that the Qing was not simply another Chinese dynasty but was deeply engaged in Inner Asia not only militarily but culturally politically and ideologically Emphasizing the diverse range of peoples in the Qing empire this book analyzes the importance to Chinese history of Manchu relations with Tibetan prelates Mongolian chieftains and the Turkic elites of Xinjiang In offering a new appreciation of a culturally and politically complex period the authors discuss the nature and representation of emperorship especially under Qianlong r 1736 1795 and examine the role of ritual in relations with Inner Asia including the vaunted but overrated tribute system By using a specific artifact or text as a starting point for analysis in each chapter the contributors not only include material previously unavailable in English but allow the reader an intimate knowledge of life at Chengde and its significance to the Qing period as a whole

Peking Susan Naquin, 2001-01-15 The central character in Susan Naquin s extraordinary new book is the city of Peking during the Ming and Qing periods Using the city s temples as her point of entry Naquin carefully excavates Peking s varied public arenas the city s transformation over five

centuries its human engagements and its rich cultural imprint This study shows how modern Beijing's glittering image as China's great and ancient capital came into being and reveals the shifting identities of a much more complex past one whose rich social and cultural history Naquin splendidly evokes Temples by providing a place where diverse groups could gather without the imprimatur of family or state made possible a surprising assortment of community building and identity defining activities By revealing how religious establishments of all kinds were used for fairs markets charity tourism politics and leisured sociability Naquin shows their decisive impact on Peking and at the same time illuminates their little appreciated role in Chinese cities generally Lacking most of the conventional sources for urban history she has relied particularly on a trove of commemorative inscriptions that express ideas about the relationship between human beings and gods about community service and public responsibility about remembering and being remembered The result is a book that will be essential reading in the field of Chinese studies for years to come
