Over macht en overwicht Hanno Brand,1996 *The Nobility of Holland* Henk F. K. van Nierop,1993-03-25 This is the first full scale analysis of the social and political transformation of the nobility of Holland during the revolt against Spain in the sixteenth and seventeenth centuries In the age of Rembrandt nobles seemed to have been obliterated by the rising bourgeois merchants However in this study of the impact of the Dutch revolt the author finds that Dutch nobles were extremely successful in maintaining their positions within the supposedly bourgeois Republic forming the elite in administrative political and economic systems This is a revised edition of van Nierop s widely acclaimed Dutch publication

The Dutch Gentry, 1500-1650 Sherrin Marshall,1987-04-15 This detailed study of Dutch gentry families affords many valuable historical insights and challenges current assumptions about the nature of family life during the early modern period Marshall offers an in depth portrait of the Dutch gentry their family organization and relationships and the role of lineage religion law and custom economics and politics in their daily lives *Capital Women* Jan Luiten van Zanden,Tine De Moor,Sarah Carmichael,2019-02-14 This book demonstrates that women have been and key to understanding processes of development and explores the importance of greater gender equality for financial markets religious institutions and human capital formation Mededeelingen der Koninklijke Nederlandsche Akademie van Wetenschappen, Afd.
