Essentials of Community-based Research Vera Caine, Judy Mill, 2016-09-16 Community based research CBR is the most commonly used method for serving community needs and effecting change through authentic ethical and meaningful social research In this brief introduction to CBR the real world approach of noted experts Vera Caine and Judy Mill helps novice researchers understand the promise and perils of engaging in this research tradition This book outlines the basic steps and issues in the CBR process from collaboratively designing and conducting the research with community members to building community capacity covers how to negotiate complicated questions of researcher control and ethics includes a chapter written by community partners among the examples from numerous projects from around the world

Reconceptualizing Faculty Development in Service-Learning/Community Engagement Becca Berkey, Emily Eddins Rountree, Patrick M. Green, Cara Meixner, 2023-07-03 The role of educational developer in the realm of service learning and community engagement S LCE is multidimensional Given the potentially transformational nature for both faculty and students of the experiences and courses in whose design they may be directly or indirectly involved as well as their responsibility to the communities served by these initiatives they have to be particularly attentive to issues of identity values and roles As both practitioners and facilitators they are often positioned as third space professionals This edited volume provides educational developers and community engagement professionals an analysis of approaches to faculty development around service learning and community engagement Using an openly self reflective approach the contributors to this volume offer an array of examples and models as well as realistic strategies to empower readers to evolve their faculty development efforts in service learning and community engagement on their respective campuses It is also a call for recognition that the practice of S LCE needs to be institutionalized and improved The book further addresses the field's potential contributions to scholarship such as the scholarship of teaching and learning SoTL publicly engaged scholarship and collaborative inquiry among others The case studies provide an outline of program models and promising practices including an authentic analysis of the institutional context within which they operate the positionality of the practitioner scholars overseeing them the resources required and the evidence related to both successes and challenges of these

approaches The contributed chapters are organized under four themes the landscape of faculty development and community engagement models of faculty development in S LCE challenges and opportunities in pedagogy and partnerships and engendering change in educational development **Community-Oriented Health Services** Elias Mpofu,2014-12-08

Grounded in a transdisciplinary approach this groundbreaking text provides extensive evidence based information on the value of communities as the primary drivers of their own health and well being It describes foundational community health concepts and procedures and presents proven strategies for engaging communities as resources for their own health improvement an important determinant of individual well being It is based on recommendations by the World Health Organization s International Classification of Functioning Disability and Health and on the premise that healthy communities are those with populations that participate in their own health promotion maintenance and sustenance The book is unique in its integration of environmental and social justice issues as they significantly affect the advancement of community health The text focuses on community oriented health interventions informed by prevention inclusiveness and timeliness that both promote better health and are more cost effective than individually focused interventions It addresses the foundations of community oriented health services including their history social determinants concepts and policies as well as the economics of community oriented health services and health disparities and equity It covers procedures for designing implementing monitoring and evaluating sustainable community health coalitions along with tools for measuring their success Detailed case studies describe specific settings and themes in U S and international community health practice in which communities are both enactors and beneficiaries An accompanying instructor s manual provides learning exercises field based experiential assignments and multiple choice questions A valuable resource for students and practitioners of education public policy and social services this book bridges the perspectives of environmental justice public health and community well being and development which while being mutually interdependent have rarely been considered together **KEY FEATURES** Offers a new paradigm for improving public health through community driven health coalitions Includes evidence based strategies for engaging communities in the pursuit of health Demonstrates how to design implement monitor and evaluate community health partnerships Presents transdisciplinary approaches that consider environmental and social justice variables Includes contributions of international authors renowned in community health research and practice
