Marianne Bentzen, Susan Hart

Cant Eat Wont Eat Dietary Difficulties And Autistic Spectrum Disorders:

Can't Eat, Won't Eat Brenda Legge, 2002-01-15 A decade ago the author's son first took a dislike to milk and then to virtually every other substance she attempted to feed him. Her book was written to reassure other parents that there are lots of people out there in the same boat and to suggest practical methods of dealing with the problem. *Can't Eat, Won't Eat* Brenda Legge, 2002 This book offers supportive information and suggestions on children with Asperger syndrome or autism who refuse to eat. *Food Refusal and Avoidant Eating in Children, including those with Autism Spectrum Conditions* Gillian Harris, Elizabeth Shea, 2018-07-19 A guide for parents and professionals working with children with autism who have a restricted dietary range. It helps the reader to understand the behaviour and work with it in order to gradually increase the range of food a child will eat. Informative and accessible the book helps manage selective eating in all its manifestations.

Autistic Spectrum Disorders UK Northumberland County Council Communication Support Services, 2013-07-04 This book offers helpful categorization of problem areas, solutions that allow teachers to help children promptly and effectively, advice on setting IEP targets and photocopiable resources. *Profound Intellectual and Multiple Disabilities* Jillian Pawlyn, Steven Carnaby, 2009-01-28 Children and adults with profound and multiple learning disabilities (PMLD) are among the most marginalised people in society. They have some of the highest support needs and are most reliant on services. This accessible text presents and promotes current best practice regarding interventions to meet the complex health needs of a person with profound multiple learning disabilities. Practical in focus, this text provides evidence-based guidance on meeting the complex needs of a person with PMLD. The text presents a range of complex health needs that a practitioner may face such as communication, nutrition, epilepsy, vision and mobility. Each practice-focused chapter provides clear definitions of the condition with current evidence-based best practice supporting the intervention. Written by a team of professionals who have wide experience and interest in this subject area, this text will be invaluable for all those working with and caring for those with profound and multiple learning disabilities. **Understanding Difficulties at Break Time and Lunchtime** Patricia Thorpe, 2004

Through Windows of Opportunity Marianne Bentzen, Susan Hart, 2018-04-27 Research has shown that nonspecific factors such as relationship and personality have a stronger correlation to outcome than method. The basic argument of *Through Windows of Opportunity* is that skilled psychotherapists do similar things while describing them differently and that psychological healing is created in the context of relationship. This book presents the work of four therapists: Peter Levine from the USA working with Somatic Experiencing on trauma; states Jukka Makela from Finland with Theraplay working with disorganized attachment; Haldor Ovreeide from Norway with a therapeutic conversation in a disrupted son-mother dyad; and Eia Asen from the London Marlborough Clinic with systemic and mentalization-based family therapy working on a dependent attachment pattern. The closing chapters of the book summarize the high points of the discussions among the four therapists about nonspecific but shared aspects of their interventions, moderated by the authors.
