## **Capital Punishment And Roman Catholic Moral Tradition Second Edition:**

*Capital Punishment and Roman Catholic Moral Tradition, Second Edition* E. Christian Brugger, 2024-11 Why is the Catholic Church against the death penalty This second edition of Brugger's classic work *Capital Punishment and Roman Catholic Moral Tradition* traces the doctrinal path the Church has taken over the centuries to its present position as the world's largest and most outspoken opponent of capital punishment The pontificate of John Paul II marked a watershed in Catholic thinking The pope taught that the death penalty is and can only be rightly assessed as a form of self defense But what does this mean What are its implications for the Church's traditional retribution based model of lethal punishment How does it square with what the Church has historically taught Brugger argues that the implications of this historic turn have yet to be fully understood In his new preface Brugger examines the contribution of the great Polish pope's closest collaborator and successor in the Chair of Peter Pope Benedict XVI to Catholic thinking on the death penalty He argues that Pope Benedict maintained the doctrinal status quo of his predecessor's teaching on capital punishment as self defense with detectable points of reluctance to draw attention to nontraditional implications of that teaching Pastoral Ethics, Second Edition W. Ross Hastings, 2025-08-19 Pastors regularly face concrete ethical questions and they too pursue a moral life In the busyness of ministry it can be tempting to think pragmatically or derive one's ethics from the latest cultural concerns But standard approaches to ethics whether deontological utilitarian or virtue ethical all fall short of being distinctly Christian Ethics ought to be grounded in the gospel and in our triune God In *Pastoral Ethics* W Ross Hastings provides pastors with an evangelical and trinitarian framework for moral formation and ethical discernment For Hastings ethics must be reclaimed as theological Theology without ethics becomes Gnosticism Ethics without theology leads to legalism and death Christian ethics participates in God's life and God's work This communion with God leads to obedience to his commands as summed up in the Decalogue and over several chapters Hastings provides a rich exposition for pastoral formation Pastors find their identity in God and this inspires right thinking and acting with regard to authority life and death sexuality work and rest speech and desires An approach to ethics that prompts faith hope and love *Pastoral Ethics* is an essential guide for Christians in all ministry contexts Capital Punishment and Roman Catholic Moral Tradition Eugene Christian Brugger, 2003 What is the Catholic Church's position on the death penalty How and why has it changed through the ages Tracing the history of this thorny moral issue Brugger offers a detailed exegesis of the Church's account of its morality as formulated in the Catechism of the Catholic Church *Ethics for a Brave New World, Second Edition (Updated and Expanded)* John S. Feinberg, Paul D. Feinberg, 2010-11-04 Aldous Huxley's 1932 book *Brave New World* foresees a world in which technological advances have obliterated morality and freedom John Feinberg and Paul Feinberg in the first edition of *Ethics for a Brave New World* noted how Huxley landed frighteningly close to the truth Their book responded to ethical crises such as abortion euthanasia capital punishment and genetic engineering by looking to Scripture for principles to guide us through the moral quagmires of our

time Now dramatically updated and expanded this edition of Ethics for a Brave New World seeks to maintain the relevance rigorous scholarship and biblical faithfulness of the first edition While many of the topics covered in the book remain the same John Feinberg has revised each chapter to keep it current with contemporary trends and to respond to the most recent scholarship There is a new chapter on stem cell research and greatly expanded material on issues such as homosexuality and genetic engineering This important resource will be a valuable guide for students and those seeking answers to ethical dilemmas

By Man Shall His Blood Be Shed Edward Feser, Joseph Bessette, 2017-03-15 The Catholic Church has in recent decades been associated with opposition to the death penalty It was not always so This timely work recovers and calls for a revival of the Catholic tradition of support for capital punishment Drawing upon a wealth of philosophical scriptural theological and social scientific arguments the authors show that it is the perennial and irreformable teaching of the Church that capital punishment can in principle be legitimate not only to protect society from immediate physical danger but also for purposes such as retributive justice and deterrence They show that the recent statements of churchmen in opposition to the death penalty are merely prudential judgments with which faithful Catholics are not obliged to agree They also show that the prudential grounds for opposition to capital punishment offered by Catholics and others in recent years are without force The extreme statements made by some Catholics in opposition to the death penalty do grave harm to the Church by falsely suggesting a rupture in her traditional teaching thereby inadvertently casting doubt on the reliability of the Magisterium And they do grave harm to society by removing a key component of any system of criminal justice which can protect the lives of the innocent inculcate a horror of murder and affirm the dignity of human beings as free and rational creatures who must be held responsible for their actions By Man Shall His Blood Be Shed is a challenge to contemporary Catholics to move beyond simple minded sloganeering to a serious engagement with scripture tradition natural law and the actual social scientific evidence and a faithful exercise of the hermeneutic of continuity called for by Pope Benedict XVI
