Capitalist Superheroes Caped Crusaders In The Neoliberal Age:

Capitalist Superheroes Dan Hassler-Forest, 2012-12-06 The blockbuster superhero movie popular entertainment or capitalist propaganda This book investigates the 21st century superhero s underlying political agenda *Many More Lives of the Batman* Roberta Pearson, William Uricchio, Will Brooker, 2019-07-25 The Many Lives of the Batman 1991 was a pioneer within cultural and comic book scholarship This fresh new sequel retains the best of the original chapters but also includes images new chapters and new contributions from the Batman writers and editors Spanning 75 years and multiple incarnations this is the definitive history of Batman **The Canadian Alternative** Dominick Grace, Eric Hoffman, 2017-11-20 Contributions by Jordan Bolay Ian Brodie Jocelyn Sakal Froese Dominick Grace Eric Hoffman Paddy Johnston Ivan Kocmarek Jessica Langston Judith Leggatt Daniel Marrone Mark J McLaughlin Joan Ormrod Laura A Pearson Annick Pellegrin Mihaela Precup Jason Sacks and Ruth Ellen St Onge This overview of the history of Canadian comics explores acclaimed as well as unfamiliar artists Contributors look at the myriad ways that English language Francophone Indigenous and queer Canadian comics and cartoonists pose alternatives to American comics to dominant perceptions even to gender and racial categories In contrast to the United States melting pot Canada has been understood to comprise a social cultural and ethnic mosaic with distinct cultural variation as part of its identity This volume reveals differences that often reflect in highly regional and localized comics such as Paul MacKinnon s Cape Breton specific Old Trout Funnies Michel Rabagliati s Montreal based Paul comics and Kurt Martell and Christopher Merkley s Thunder Bay specific zombie apocalypse The collection also considers some of the conventionally alternative cartoonists namely Seth Dave Sim and Chester Brown It offers alternate views of the diverse and engaging work of two very different Canadian cartoonists who bring their own alternatives into play Jeff Lemire in his bridging of Canadian US and mainstream alternative sensibilities and Nina Bunjevac in her own blending of realism and fantasy as well as of insider outsider status Despite an upsurge in research on Canadian comics there is still remarkably little written about most major and all minor Canadian cartoonists This volume provides insight into some of the lesser known Canadian alternatives still awaiting full exploration Capitán Latinoamérica Vinodh Venkatesh, 2020-10-01 Capit n Latinoam rica is the first study to examine the unique contribution of Latin American cinema television and web series to the global superhero boom Through an analysis of superhero themed media from Mexico to Argentina Vinodh Venkatesh argues that contemporary Latin American superheroes are a hybrid of regional tropes and figures such as the famed luchador El Chapul n Colorado and North American blockbuster characters from the DC and Marvel universes These superheroes channel anxieties specific to their respective national contexts In Chile for example Mirageman rehashes and works through the Pinochet dictatorship and its traumatic aftermath in Honduras Chinche Man confronts neoliberalism and gang violence In Colombia s El Man in turn rapid urbanization and drug cartels are the central concerns whereas corruption and the political machinations of the state feature most prominently in the television and web

series Capit n Centroam rica While the Latin American superhero genre may be superficially characterized by low budgets and kitsch aesthetics it also poses profound challenges to the social political and economic status quo Covering a wide variety of media bookended by wrestling films from the early 1960s and multimedia productions from the 2010s Capit n Latinoam rica offers a comprehensive introduction to and assessment of the state of the superhero in Latin America

Reboot Culture William Proctor, 2023-11-24 Since the release of Christopher Nolan s Batman Begins in 2005 there has been a pronounced surge in alternative uses of the computer term reboot a surge that has witnessed the term deployed in new contexts and new signifying practices involving politics fashion sex nature sport business and media As a narrative concept however reboot terminology remains widely misused misunderstood and misinterpreted across popular journalistic and academic discourses being recklessly and relentlessly solicited as a way to describe a broad range of narrative operations and contradictory groupings including prequels sequels adaptations revivals re launches generic refreshes and enactments of retroactive continuity Adopting an inter disciplinary approach that fuses cultural studies media archaeology and discursive approaches this book challenges existing scholarship on the topic by providing new frameworks and taxonomies that illustrate key differences between reboots and other strategies of regeneration helping to spotlight the various ways in which the culture industries mine their intellectual properties in distinct and novel ways to present them anew Reboot Culture Comics Film Transmedia is the first academic study to critically explore and interrogate the reboot phenomenon as it emerged historically to describe superhero comics that sought to jettison existing narrative continuity in order to begin again from scratch of franchising in the twenty first century of franchising in the twenty first century div

Comics through Time M. Keith Booker, 2014-10-28 Focusing especially on American comic books and graphic novels from the 1930s to the present this massive four volume work provides a colorful yet authoritative source on the entire history of the comics medium Comics and graphic novels have recently become big business serving as the inspiration for blockbuster Hollywood movies such as the Iron Man series of films and the hit television drama The Walking Dead But comics have been popular throughout the 20th century despite the significant effects of the restrictions of the Comics Code in place from the 1950s through 1970s which prohibited the depiction of zombies and use of the word horror among many other rules Comics through Time A History of Icons Idols and Ideas provides students and general readers a one stop resource for researching topics genres works and artists of comic books comic strips and graphic novels The comprehensive and broad coverage of this set is organized chronologically by volume Volume 1 covers 1960 and earlier Volume 2 covers 1960 1980 Volume 3 covers 1980 1995 and Volume 4 covers 1995 to the present The chronological divisions give readers a sense of the evolution of comics within the larger contexts of American culture and history The alphabetically arranged entries in each volume address topics such as comics publishing characters imprints genres themes titles artists writers and more While special attention is paid to American comics the entries also include coverage of British Japanese and European

comics that have influenced illustrated storytelling of the United States or are of special interest to American readers

Toward a Counternarrative Theology of Race and Whiteness Christopher M. Baker, 2022-05-10 This book argues that race and whiteness are central to the construction of the modern world Constructive Theology needs to take them seriously as primary theological problems In doing so Constructive Theology must fundamentally change its approach and draw from the emerging field of Philosophy of Race Christopher M Baker develops a genealogy of race that understands whiteness as a kind secular soteriology and develops a counternarrative theological method informed by resources from Philosophy of Race He then deploys that method to read science fiction cinema and superhero stories as cultural racial and theological documents that can be critically engaged and redeployed as counternarratives to dominant racial narratives *American Cinema in the Shadow of 9/11* Terence McSweeney, 2016-12-05 *American Cinema in the Shadow of 9 11* is a ground breaking collection of essays by some of the foremost scholars writing in the field of contemporary American film Through a dynamic critical analysis of the defining films of the turbulent post 9 11 decade the volume explores and interrogates the impact of 9 11 and the War on Terror on American cinema and culture In a vibrant discussion of films like *American Sniper* 2014 *Zero Dark Thirty* 2012 *Spectre* 2015 *The Hateful Eight* 2015 *Lincoln* 2012 *The Mist* 2007 *Children of Men* 2006 *Edge of Tomorrow* 2014 and *Avengers Age of Ultron* 2015 noted authors Geoff King Guy Westwell John Shelton Lawrence Ian Scott Andrew Schopp James Kendrick Sean Redmond Steffen Hantke and many others consider the power of popular film to function as a potent cultural artefact able to both reflect the defining fears and anxieties of the tumultuous era but also shape them in compelling and resonant ways *Handbook of Comics and Graphic Narratives* Sebastian Domsch, Dan Hassler-Forest, Dirk Vanderbeke, 2021-07-05 Whether one describes them as sequential art graphic narratives or graphic novels comics have become a vital part of contemporary culture Their range of expression contains a tremendous variety of forms genres and modes from high to low from serial entertainment for children to complex works of art This has led to a growing interest in comics as a field of scholarly analysis as comics studies has established itself as a major branch of criticism This handbook combines a systematic survey of theories and concepts developed in the field alongside an overview of the most important contexts and themes and a wealth of close readings of seminal works and authors It will prove to be an indispensable handbook for a large readership ranging from researchers and instructors to students and anyone else with a general interest in this fascinating medium *American Science Fiction Television and Space* Joel Hawkes, Alexander Christie, Tom Nienhuis, 2023-03-05 This collection reads the science fiction genre and television medium as examples of heterotopia and television as science fiction technology in which forms processes and productions of space and time collide a multiplicity of spaces produced and re configured The book looks to be a heterotopic production with different chapters and spaces of genre production mediums technologies homes bodies etc reflecting refracting and colliding to offer insight into spatial relationships and the implications of these spaces for a society that increasingly inhabits the world through the space of the

screen A focus on American science fiction offers further spatial focus for this study a question of geographical and cultural borders and influence not only in terms of American science fiction but American television and streaming services The contested hegemonic nature of American science fiction television will be discussed alongside a nation that has significantly been understood even produced through the television screen Essays will examine the various re configurations or productions of space as they collapse into the science fiction heterotopia of television since 1987 the year Star Trek Next Generation began airing
