City Of God Penguin Classics:

City of God Saint Augustine (of Hippo), 2003-11-27 One of the great cornerstones in the history of Christian philosophy The City of God provides an insightful interpretation of the development of modern Western society and the origin of most Western thought Contrasting earthly and heavenly cities representing the omnipresent struggle between good and evil Augustine explores human history in its relation to all eternity In Thomas Merton's words The City of God is the autobiography of the Church written by the most Catholic of her great saints This Modern Library Paperback Classics edition is a complete and unabridged version of the Marcus Dods translation

The City of God (Royal Collector's Edition) (Case Laminate Hardcover with Jacket) Saint Augustine, 2020-12-29 The City of God is a book of Christian philosophy presenting human history as a conflict between what Augustine calls the Earthly City and the City of God a conflict that is destined to end in victory for the latter The City of God is marked by people who forego earthly pleasure to dedicate themselves to the eternal truths of God now revealed fully in the Christian faith The Earthly City on the other hand consists of people who have immersed themselves in the cares and pleasures of the present passing world The City of God was written in response to allegations that Christianity brought about the decline of Rome It is considered one of Augustine's most important works standing alongside The Confessions The Enchiridion On Christian Doctrine and On the Trinity As a work of one of the most influential Church Fathers The City of God is a cornerstone of Western thought presenting many profound questions of theology such as the suffering of the righteous the existence of evil the conflict between free will and divine omniscience and the doctrine of original sin This case laminate collector's edition includes a Victorian inspired dust jacket

The Horizon Didier Maleuvre, 2011-02-15 What is a horizon A line where land meets sky The end of the world or the beginning of perception In this brilliant engaging and stimulating history Didier Maleuvre journeys to the outer reaches of human experience and explores philosophy religion and art to understand our struggle and fascination with limits of life knowledge existence and death Maleuvre sweeps us through a vast cultural landscape enabling us to experience each stopping place as the cusp of a limitless journey whether he is discussing the works of Picasso Gothic architecture Beethoven or General Relativity If as Aristotle said philosophy begins in wonder then this remarkable book shows us how wonder the urge to know beyond the conceivable is itself the engine of culture

The New Isaac Leroy Huizenga, 2009-09-14 Gospel scholarship has long recognized that Matthean Christology is a rich multifaceted tapestry weaving multifold Old Testament figures together in the person of Jesus It is somewhat strange therefore that scholarship has found little role for the figure of Isaac in the Gospel of Matthew Employing Umberto Eco's theory of the Model Reader as a theoretical basis to ground the phenomenon of Matthean intertextuality this work contends that when read rightly as a coherent narrative in its first century setting with proper attention to both biblical texts and extrabiblical traditions about Isaac the Gospel of Matthew evinces a significant Isaac typology in service of presenting Jesus as new temple and decisive sacrifice

The Unbound God Chris L.

de Wet,2017-07-14 This volume examines the prevalence function and socio political effects of slavery discourse in the major theological formulations of the late third to early fifth centuries AD arguably the most formative period of early Christian doctrine The question the book poses is this in what way did the Christian theologians of the third fourth and early fifth centuries appropriate the discourse of slavery in their theological formulations and what could the effect of this appropriation have been for actual physical slaves This fascinating study is crucial reading for anyone with an interest in early Christianity or Late Antiquity and slavery more generally Angels in Late Ancient Christianity Ellen Muehlberger,2013-03-21 Ellen Muehlberger explores the diverse and inventive ideas Christians held about angels in late antiquity During the fourth and fifth centuries Christians began experimenting with new modes of piety adapting longstanding forms of public authority to Christian leadership and advancing novel ways of cultivating body and mind to further the progress of individual Christians Muehlberger argues that in practicing these new modes of piety Christians developed new ways of thinking about angels The book begins with a detailed examination of the two most popular discourses about angels that developed in late antiquity In the first developed by Christians cultivating certain kinds of ascetic practices angels were one type of being among many in a shifting universe and their primary purpose was to guard and to guide Christians In the other articulated by urban Christian leaders in contest with one another angels were morally stable characters described in the emerging canon of Scripture available to enable readers to render Scripture coherent with emerging theological positions Muehlberger goes on to show how these two discourses did not remain isolated in separate spheres of cultivation and contestation but influenced one another and the wider Christian culture She offers in depth analysis of popular biographies written in late antiquity of the community standards of emerging monastic communities and of the training programs developed to prepare Christians to participate in ritual demonstrating that new ideas about angels shaped and directed the formation of the definitive institutions of late antiquity Angels in Late Ancient Christianity is a meticulous and thorough study of early Christian ideas about angels but it also offers a different perspective on late ancient Christian history arguing that angels were central rather than peripheral to the emergence of Christian institutions and Christian culture in late antiquity **International Handbook of Inter-religious Education** Kath Engebretson,Marian de Souza,Gloria Durka,Liam Gearon,2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the f ther assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world s religions teach about sp itual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understa ing An essential aim of interreligious education is the

promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity **The Cambridge Companion to Augustine** David Vincent Meconi, Eleonore Stump, 2014-06-05 This second edition of the Companion has been thoroughly revised and updated with eleven new chapters and a new bibliography

William Blake and Gender Magnus Ankarsjö, 2015-01-27 The closing years of the eighteenth century were the particular domain of literary radicals whose work challenged ideas on gender and sexuality During this transitional period the poetry of William Blake reflected the changing mores of society as well as his own developing notions of gender This work presents an in depth exploration of gender issues in Blake's three epic poems The Four Zoas Milton and Jerusalem The opening chapter discusses basic concepts such as notions of apocalypse utopia and gender all essential to the author's reading of Blake Background regarding the literary atmosphere of the time which included influence from the tradition of dissent English Jacobinism and early feminism is also included effectively setting the context for Blake's work The book then examines the poems in chronological order It concentrates particularly on male and female activity within each work refuting the common assumption that Blake was anti feminist while exploring the symbolism of the poetry Blake's repeated theme of the struggle between the sexes receives special emphasis as does the progress of his gender vision through the three poems The Sentences Peter Lombard (Bishop of Paris), 2007 This volume makes available for the first time in English full translations of Book 2 of the Sentences It consists of forty four Distinctions and contains an introduction to Book 2 a list of the major chapter headings and a bibliography
