The Soteriology of Leo the Great Bernard Green, 2008-04-10 Leo the Great was the beneficiary of the consolidation of the power of the papacy in Rome and the Christianization of the city over the course of the preceding century In this carefully nuanced study Bernard Green demonstrates the influences at work on this celebrated pope s development as a theological thinker including two of the most reknowned theological names of the period Ambrose of Milan and Augustine of Hippo Green charts Leo s theological journey

from his first encounters with the Pelagian and Nestorian controversies where he engaged Cassian as an advisor Leo took an admiring though limited view of Cyril of Alexandria but misunderstood the weaknesses in Nestorius thought As pope Leo preached a civic Christianity accessible to all citizens baptising the virtues of the classical and civic past The study then examines Leo s recently dated sermons and reveals the evolution of his thought as he worked out a soteriology that gave full value to both the divinity and humanity of Christ especially in reaction to Manichaeism In the crisis that led to Chalcedon Leo s earlier misunderstanding of Nestorius affected the content of his Tome which was atypical of the Christology and soteriology he had developed in his earlier preaching Green persuasively concludes that its emphasis on the distinction of the two natures was an uncharacteristic attempt to respond to both Eutyches and Nestorius as this pope understood them In the light of Chalcedon Leo produced a revised statement of Christology the Letter to the Palestinian monks which is both more accomplished and better aligned with his characteristic thought

Townspeople and Nation Robert Tittler,2001 The century bounded by the Henrician Reformation and the Civil Wars marked an important stage in the development of urban institutions culture and society in England At the outset of this period England was still very much an agrarian society by its end it was well on the way to becoming an urban one as well The complexity and subtlety of those developments become especially vivid when we experience them through the lives of more or less ordinary townspeople which Tittler allows us to do here These biographical studies not only have much to tell us about the time and milieu but also provide an array of interesting and varied characters Henry Manship the historian of his native Yarmouth Henry Hardware who removed the giant the naked boys and the devil in feathers from Chester s Midsummer Show Robert Swaddon the swindler and John Pulman the thief taker of London Joyce Jeffries the spinster money lender of Hereford John Brown the speculator in dissolved monastic lands in Boston John Pitt the overseer of guildhall construction in Blandford Forum John and Joan Cooke the Mayor and Mayoress of Gloucester the subjects of a most revealing posthumous portrait and Sir Thomas White of London the philanthropist and merchant hero Tittler introduces these studies with a comprehensive but succinct description of English towns and cities of the time

Robinson traces the formative impact of ideas about Europe and Europeanness on British American politics and identity touching on everything from international relations and nationalism to news media and poetry *Penitence, Preaching and the Coming of the Reformation* Anne T. Thayer, 2017-07-05 Why did the Reformation take root in some places and not others Although many factors were involved the varying character of penitential preaching across Europe in the decades prior to the Reformation was an especially important contributor to the subsequent receptivity of evangelical ideas In this book several collections of model sermons are studied to provide an overview of late medieval teaching on penitence What emerges is a pattern of differing emphases in different geographical locations with the characteristic emphases of the penitential message in each region suggesting how such teaching prepared the ground for both the appeal and the reputation of Luther's message People heard and interpreted the new theology using the late medieval penitential understandings and expectations they had been taught The variety of teaching found in the Church left different regions vulnerable or resistant to evangelical critiques and alternatives Despite current academic claims that the establishment of the Reformation cannot have resulted from lay religious understanding this study offers evidence that theological ideas did reach beyond religious elites to promote a degree of popular support for the Reformation
