Citizenship In Diverse Societies:

Citizenship in Diverse Societies Will Kymlicka, Wayne Norman, 2000-03-16 Is it possible in a modern pluralistic society to promote common bonds of citizenship while at the same time accommodating and showing respect for ethnocultural diversity? Citizenship and diversity have been two of the major topics of debate in both democratic politics and political theory over the past decade. Much has been written about the importance of citizenship, civic identities and civic virtues for the functioning of liberal democracies and the need to accommodate the ethnocultural, linguistic and religious pluralism that is a fact of life in most modern states. By and large, however, these two topics have been largely discussed in mutual isolation. Much of the writing on the issues of both citizenship and diversity remains rather abstract and general and disconnected from the specific issues of public policy and institutional design. *Citizenship in Diverse Societies* examines the specific points of conflict and convergence between concerns for citizenship and diversity in democratic societies and reassesses and refines existing theories of diverse citizenship by examining these theories in the light of actual practices and policies of pluralistic democracies.

Citizenship in Diverse Societies Will Kymlicka, 2000 In this new edited volume by Will Kymlicka, leading scholars of multicultural issues examine questions related to multiculturalism and citizenship. Most modern democracies contain significant minority groups whose language, religion or ethnicity differs from those of the majority. Is it possible in such societies to accommodate these forms of diversity without weakening the bonds of common citizenship? In this volume, distinguished scholars explore this question by looking at concrete issues where the demands of citizenship and diversity often clash. Contents: I. Citizenship, Education and Religious Diversity; II. Political Participation and Group Representation; III. Immigration, Identity and Multiculturalism; IV. Gender and Ethnic Diversity; V. Language Rights; VI. The Rights of Indigenous Peoples; VII. Federalism and Nationalism. European Identity Ireneusz Pawel Karolewski, Viktoria Kaina, 2006 Despite its unequalled history of success, the European Union is still far from its citizens. In the aftermath of the failed referenda on the European constitutional treaty in France and the Netherlands in the early summer of 2005, the EU is facing a severe crisis of trust. Hence the questions arise: how much pressure can the community tolerate in order to persist and what does hold it together in times of scarcity, conflict, danger and threat? The contributions of this volume do not only provide a variety of conceptualizations of European identity in the broad field of social sciences such as sociology, political theory and international relations, but first and foremost intend to enrich the present research by offering new theoretical perspectives and recent empirical findings.

The Future Governance of Citizenship Dora Kostakopoulou, 2008-05-08 In much of the citizenship literature, it is often considered, if not simply assumed, that citizenship is integral to the character of a self-determining community and that this process, by definition, involves the exclusion of resident foreigners. Dora Kostakopoulou calls this assumption into question, arguing that aliens are, by definition, outside the bounds of the community by virtue of a circular reasoning which takes for granted the existence of bounded national communities and that this process of collective

self definition is deeply political and historically dated Although national citizenship has enjoyed a privileged position in both theory and practice its remarkable elasticity has reached its limit thereby making it more important to find an alternative model Kostakopoulou develops a new institutional framework for a national citizenship which can be grafted onto the existing state system defends it against objections and proposes institutional reform based on an innovative approach to citizenship

Citizenship and Identity in Turkey Basak Ince,2012-04-26 Is Turkish nationalism simply a product of Kemalist propaganda from the early Turkish Republic or an inevitable consequence of a firm and developing Turkish identity How do the politics of nationalism and identity limit Turkey's progression towards a fuller more institutionalised democracy Turkish citizenship is a vital aspect of today's Republic and yet it has long been defined only through legal framework neglecting its civil political and social implications Here Basak Ince seeks to rectify this examining the identity facets of citizenship and how this relates to nationalism democracy and political participation in the modern Turkish republic By tracing the development of the citizenship from the initial founding of the Republic to the immediate post World War II period and from the military interventions of the 1960s 1970s and 1980s to the present day she offers in depth analysis of the interaction of state and society in modern Turkey which holds wider implications for the study of the Middle East
