

North Carolina End-of-Course Test of Civics and Economics

What is end-of-course testing and what is its purpose?

The North Carolina End-of-Course Test of Civics and Economics is required by General Statute 115C-174.10 as a component of the North Carolina Annual Testing Program. The purposes of end-of-course tests are: (1) to assure that all high school graduates possess those minimum skills and that knowledge thought necessary to function as a member of society; (2) to provide a means of identifying strengths and weaknesses in the educational process in order to improve instructional delivery; and (3) to establish a means for making the educational system at the state, local, and school levels accountable to the public for results. This end-of-course test is one component of the North Carolina Testing Program.

At the LEA level, student's scores from the U.S. History end-of-course assessments are included in the students' permanent records and high school transcripts. LEAs are required by State Board of Education policy to use results from this assessment as at least twenty-five percent (25%) of the student's final grade in the course. At the state level, student scores from Civics and Economics assessments are used in the computation of school growth and performance composites for the ABCs Accountability Program. At the federal level, U.S. History results are used in the calculations of the Adequate Yearly Progress results under Title I of the No Child Left Behind Act of 2001 (NCLB).

According to the State Board of Education (SBE) policy HSP-N-004 (16 NCAC 6D.0503) students entering the ninth grade for the first time in 2006-07 and beyond are required to meet new exit standards. To meet graduation exit standards, students in the Career Preparation, College Technical Preparation, or College University Preparation courses of study are required to perform at Achievement Level III (with one standard error of measurement) or above on the U.S. History end-of-course assessment and four other designated end-of-course assessments (English I, Algebra I, Biology, and U.S. History).

What is measured by the test?

The Civics and Economics end-of-course test assesses the goals for Civics and Economics described in the North Carolina *Standard Course of Study* (SCS) revised 2001. During the administration of the U.S. History end-of-course tests students are asked to respond to a total of 100 questions about Civics and Economics. Most of the items are scored for accountability purposes at the student, state, and federal levels. The additional items are experimental items used for field testing or research purposes. These experimental items are not included in any reporting of accountability decisions, whether at the student, classroom, school, or school district level.

Some of the questions may include stimulus material such as political cartoons, historical quotes, charts, graphs, or maps. Each test item measures a specific objective from the SCS and represents a thinking skill level derived from Marzano, et al., *Dimensions of Thinking* (1988) used to undergird the development of the *Standard Course of Study*. The variety of test items on each form allows students the opportunity to demonstrate their understanding of the course content by using both lower and higher order thinking skills as required by the content standards outlined in the North Carolina *Standard Course of Study*. In this way, students are asked to respond to questions that go beyond memorization of people, dates, events, and facts to apply their knowledge of concepts, principles, procedures and ideas to other events.
