Race and Masculinity in Southern Memory Matthew Mace Barbee, 2013-12-05 In *Race and Masculinity in Southern Memory* Matthew Mace Barbee explores the long history of Richmond Virginia's iconic Monument Avenue As a network of important memorials to Confederate leaders located in the former capitol of the Confederacy Monument Avenue has long been central to the formation of public memory in Virginia and the U S South It has also been a site of multiple controversies over what who and how Richmond's past should be commemorated This book traces the evolution of Monument Avenue by analyzing public discussions of its memorials and their meaning It pays close attention to the origins of Monument Avenue and the first statues erected there including memorials to Robert E Lee and Jefferson Davis

Barbee provides a detailed and focused analysis of the evolution of Monument Avenue and public memory in Richmond from 1948 to 1996 through the Civil Rights Movement and the Civil War Centennial and up to the memorial to Arthur Ashe erected in 1996. An African American native of Richmond, Ashe was an international tennis champion and advocate for human rights. The story of how a monument to him ended up in a space previously reserved for statues of Confederate leaders helps us understand the ways Richmond has grappled with its past, especially the histories of slavery, Jim Crow, and Civil Rights.

The Resounding Revolution Stephen Stacks, 2025-05-13 Far from being bounded by the timeframe of the 1960s, the freedom song continues to evolve as a tool both of historical memory and of present activism. Stephen Stacks looks at how post-1968 freedom song helps us negotiate our present relationship to the era while at the same time sustaining the contemporary struggle inspired by it. Stacks's analysis shifts the focus of attention from genre (freedom song) to process and practice (freedom singing). As he shows, freedom singing after 1968 generates multilayered meanings. It can reinforce or resist consensus memories or dominant narratives. Stacks illuminates freedom singing's diversity by examining it in three contexts: performance, protest, and within documentary sound recording film. Insightful and vividly detailed, *The Resounding Revolution* examines sixty years of Black music to challenge and reshape the entrenched story of the Civil Rights Movement. **Mad**

Men Gary R. Edgerton, 2010-12-18 Don and Betty Draper live in a picture-perfect world. He is a hard-living advertising executive, a mad man on the fast track. She is a Bryn Mawr graduate and former fashion model, now a suburban princess, mother of three children. If they've everything, why are they so unhappy? Why is their dream come true not enough? This book explores, analyses, celebrates the world of *Mad Men* in all its aspects and includes an interview with its Executive Producer and an episode guide. Every few years a new television program comes along to capture and express the zeitgeist. *Mad Men* is now that show. Since premiering in July 2007, it's won many awards and is syndicated across the globe. Its imprint is evident throughout contemporary culture, from features to fashions and online debate. Its creator, Matthew Weiner, a former executive producer on *The Sopranos*, has created again compelling, complex characters, this time in the sophisticated go-go world of Madison Avenue through the 1960s, with the excessive drinking and smoking as well as the playing out of the prejudices and anxieties of an era long neglected in popular culture. *Mad Men* is a zeitgeist show of the early twenty-first century; this book demonstrates partly because its characters are an earlier, confused and conflicted version of ourselves trying to make the best of a future unfolding at breakneck speed. *The Routledge Handbook of Museums, Heritage, and Death* Trish

Biers, Katie Stringer Clary, 2023-07-26 This book provides a comprehensive examination of death, dying, and human remains in museums and heritage sites around the world. Presenting a diverse range of contributions from scholars, practitioners, and artists, the book reminds us that death and the dead body are omnipresent in museum and heritage spaces. Chapters appraise collection practices and their historical context, present global perspectives and potential resolutions, and suggest how death and dying should be presented to the public. Acknowledging that professionals in the galleries, libraries, archives, and

museums GLAM fields are engaging in vital discussions about repatriation and anti colonialist narratives the book includes reflections on a variety of deathscapes that are at the forefront of the debate Taking a multivocal approach the handbook provides a foundation for debate as well as a reference for how the dead are treated within the public arena Most important perhaps the book highlights best practices and calls for more ethical frameworks and strategies for collaboration particularly with descendant communities The Routledge Handbook of Museums Heritage and Death will be useful to all individuals working with studying and interested in curation and exhibition at museums and heritage sites around the world It will be of particular interest to those working in the fields of heritage museum studies death studies archaeology anthropology sociology and history
