

F. They simplify switch administration.

Answer: B,C,E

Explanation: Explanation

When using VLAN the number and size of collision domains remain the same ->

VLANs allow to group users by function, not by location or geography -> .

VLANs help minimize the incorrect configuration of VLANs so it enhances the security of the network -> .

VLAN increases the size of broadcast domains but does not decrease the number of collision domains ->

VLANs increase the number of broadcast domains while decreasing the size of the broadcast domains which increase the utilization of the links. It is also a big advantage of VLAN -> .

VLANs are useful but they are more complex and need more administration ->
