Preparing Teachers for Deeper Learning at San Francisco Teacher Residency Tara Kini, Steven K.

Wojcikiewicz, 2019-05-28 The San Francisco Teacher Residency case is one of seven that form the basis for the arguments and analyses presented in *Preparing Teachers for Deeper Learning*. Each case outlines the context, vision, and practices guiding a particular program's enactment and includes sample curricula, assessment, and feedback forms, and the program details that have contributed to its success. The cases are valuable reading for educators involved in developing teacher candidates who are self-directed, collaborative, social justice focused, and prepared to meet the needs of today's students and a changing society. *Preparing Teachers for Deeper Learning* Linda Darling-Hammond, Jeannie Oakes, 2021-02-08

Preparing Teachers for Deeper Learning answers an urgent call for teachers who educate children from diverse backgrounds to meet the demands of a changing world. In today's knowledge economy, teachers must prioritize problem-solving ability, adaptability, critical thinking, and the development of interpersonal and collaborative skills over rote memorization and the passive transmission of knowledge. Authors Linda Darling-Hammond and Jeannie Oakes and their colleagues examine what this means for teacher preparation and showcase the work of programs that are educating for deeper learning, equity, and social justice. Guided by the growing knowledge base in the science of learning and development, the book examines teacher preparation programs at Alverno College, Bank Street College of Education, High Tech High's Intern Program, Montclair State University, San Francisco Teacher Residency, Trinity University, and University of Colorado Denver. These seven programs share a common understanding of how people learn that shape similar innovative practices. With vivid examples of teaching for deeper learning in coursework and classrooms, interviews with faculty, school partners, and novice teachers, surveys of teacher candidates and graduates, and analyses of curriculum and practices, *Preparing Teachers for Deeper Learning* depicts transformative forms of teaching and teacher preparation that honor and expand all students' abilities, knowledge, and experiences, and reaffirm the promise of educating for a better world.

SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS Elva Duran, 2013-04-01 Students whose first language is not English are the fastest growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken, and presently most schools in the U.S. are undereducating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years, and this book describes the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide an excellent review of the literature in language development and address developing language instruction, listening and speaking with Spanish-speaking students, and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction, while the next addresses the components of instruction in Spanish. Chapter 6

offers lesson plan suggestions for Spanish speaking students while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs Finally Chapter 10 discusses two way bilingual immersion and shares actual classroom schedules and lessons This unique text will help in the preparation of primary grade teachers throughout the U S so that they may be successful with Hispanic students entering the public schools with little or no English background It will also be a useful tool for school districts staff development in addressing school improvement goals for increasing the achievement of Hispanic students Helping English Language Learners Meet the Common Core Paul
