Cosmopolitics And The Emergence Of A Future:

Cosmopolitics and the Emergence of a Future D. Morgan, G. Banham, 2007-02-28 In 1795 Immanuel Kant proclaimed that humans had entered into a universal community Since then connections have grown ever more pronounced with the notion of cosmopolitics defining the modern age This interdisciplinary volume makes a timely contribution to debates on international law global ecology and economy and transnational synergies **J.M. Coetzee and the Limits of**

Cosmopolitanism K. Hallemeier, 2013-11-07 Drawing on postcolonial and gender studies as well as affect theory the book interrogates cosmopolitan philosophies Through analysis of J M Coetzee s later fiction Hallemeier invites the re imagining of cosmopolitanism particularly as it is performed through the reading of literature *The Epistemology of Utopia* Jorge Bastos da Silva, 2013-05-20 The emergence of Utopian Studies as a dynamic field of inquiry situated at the crossroads of several disciplines is a striking development of the past few decades It is symptomatic of a general trend towards the overcoming of epistemological and institutional boundaries and has borne fruit in a number of ways The traditions of utopianism have come to be valued as an important nurturing of possibilities devoted to the critique and the transformation of the world By undertaking the critical interrogation of the given utopia is a figure not only of inversion but of transcendence and fulfilment The present volume takes into account the international development of Utopian Studies in recent decades Its aim is to provide critical revisions revisitings of the assumptions and methods of the discipline through a set of theoretically informed essays that focus on a number of different manifestations of utopianism The topics covered range from Plato s Republic and More s Utopia to modern day cosmopolitics glocalization and the intersections of fiction with esotericism and science

Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant s philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A

Nenon,2014-09-19 Kant Kantianism and Idealism presents an overview of German Idealism the major movement in philosophy from the late 18th to the middle of the 19th Century The period was dominated by Kant Fichte Schelling and Hegel whose work influenced not just philosophy but also art theology and politics The volume covers not only these major figures but also their main followers and interpreters These include Kant s younger contemporary Herder his early critics such as Jacobi Reinhold and Maimon and his readers Schiller and Schlegel who shaped much of the subsequent reception of Kant in art literature and aesthetics as well as Schopenhauer whose unique appropriation and criticism of theories of cognition later had a decisive influence on Nietzsche The Young Hegelians such as Bruno Bauer Ludwig Feuerbach and David Friedrich Strauss whose writings would influence Engels and Marx are also discussed The influence of Kant and German Idealism also extended into France shaping the thought of such figures as Saint Simon Fourier and Proudhon whose work would prove decisive for subsequent philosophical political and economic thinking in Europe in the second half of the 19th century

Cosmopolitanism and Transatlantic Circles in Music and Literature Ryan R. Weber,2018-10-26

Cosmopolitanism and Transatlantic Circles in Music and Literature traces the transatlantic networks that were constructed between a select group of composers including Edvard Grieg Edward MacDowell and Percy Grainger and the writers with whom they shared cosmopolitan affinities including Arne Garborg Hamlin Garland Madison Grant and Lathrop Stoddard Each overlapping case study surveys the diachronic transmission of cosmopolitanism as well as the synchronic practices that animated these modernist ideas Instead of taking a strictly chronological approach to organization each chapter offers an examination of the different layers of identity that expanded and contracted in relation to a mutual interest in Nordic culture From the burgeoning universal ambitions around 1900 to the darker racialized discourse of the 1920s this study offers a critical analysis of both the idea and practice of cosmopolitanism in order to expose its common foundations as well as the limits of its application

Modernism Between Benjamin and Goethe Matthew Charles,2019-12-12

Widely regarded as one of the foremost cultural critics of the last century Walter Benjamin s relation to Modernism has largely been understood in the context of his reception of the aesthetic theories of Early German Romanticism and his associated interest in avant garde Surrealism But this Romantic understanding only gives half the picture Running through Benjamin s thought is also a critique of Romanticism developed in conjunction with a positive engagement with the philosophical artistic and historical

writings of J W von Goethe In demonstrating the significance of these Goethean elements this book challenges the dominant understanding of Benjamin s philosophy as essentially Romantic and instead proposes that Goethe s Classicism conceived as the counterpoint to Romanticism permits a corrective to the latter s deficiencies Benjamin s Modernist concept of criticism it is argued is constituted in the movement between these polarities of Romanticism and Classicism Conversely placing Goethe s Classicism in relation to Benjamin s practice of literary criticism reveals historical tensions with Romanticism that constitute the untimely indeed it will be argued cinematic Modernism of his work Adopting a transcritical approach this book alternates between Benjamin and Goethe in relation to the experiences of colour language and technology assembling a constellation of philosophical and artistic figures between them including the writings of Kant Nietzsche Cohen Deleuze Koselleck Klages and the work of Gr newald Mar es Klee Turner Hulme Eisenstein Tretyakov and Murnau

Confronting the National in the Musical Past Elaine Kelly,Markus Mantere,Derek Scott,2018-04-19 This significant volume moves music historical research in the direction of deconstructing the national grand narratives in music history of challenging the national paradigm in methodology and thinking anew about cultural traffic cultural transfer and cosmopolitanism in the musical past The chapters of this book confront or subject to some kind of critique assumptions about the importance of the national in the musical past The emphasis therefore is not so much on how national culture has been constructed or how national cultural institutions have influenced musical production but rather on the way the national has been challenged by musical practices or audience reception
