Courses Offered At King Hintsa College:

FET Colleges South Africa. Department of Education, 2007 **Homeschooling High School** Shirley Erwee, 2014-08-28

Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring. But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers. They need information and answers to their questions. And with the current educational and unemployment problems in South Africa, young people need clear direction and guidance to help them achieve their goals. In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system, Homeschooling High School also challenges readers to rethink their values, particularly the value they place on certification, and to consider some unconventional or alternative paths to success. In a clearly presented format, the book includes advice on legal matters, identifying appropriate courses, sourcing study material, tips on entrepreneurship, financing tertiary studies, and the testimonies of successful homeschooled graduates. Homeschooling High School is a comprehensive guide to plotting a path through high school and beyond. The National Skills Development Handbook 2007/8, 2007? **Accessing Post-School Studies** Venica McGhie, 2017-12-01

This publication makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success, student learning, student support, and student engagement. In this regard, the authors draw on the works of higher education theorists such as Kuh, Tinto, Marton, and Saeljoe. The book is primarily a helpful resource for South African learners in school, students at universities, life orientation teachers, as well as parents of prospective university students. It will especially assist students to adapt to the university environment. African Languages in Classrooms and Academia: Intellectualisation and Empowerment through Formal Education Xolisa Tshongolo, 2024-12-02

To date, there have been few comprehensive books published which deal specifically with the role of African languages in academia and formal education. Motinyane Mletshe and Tshongolo, as editors, have produced a book that fills this gap. In this timely collection of 21 chapters, written in African languages and English, the contributors offer a critique of both language practice in the classroom, as well as language planning, policy creation, and implementation challenges. A timely and innovative contribution in the area of language in education, teaching pedagogy, as well as multilingualism. Shaping the Future of South Africa's Youth Helene Perold, Nico Cloete, Joy Papier, 2012

Why solving ongoing problems with the NQF National Qualifications Framework matters. The challenges unemployment imposes on youth. The challenge of youth to work transitions: an international perspective. A statistical overview of further education and training colleges. Strengthening the capacity of FET Colleges to meet the needs of young people. Higher education and an expanded post-school educational system. Trends in training in South Africa. Key issues in the assessment of South Africa's national skills development strategy. Opening the doors of learning. Viewing the post-school education and training landscape from a youth perspective. **Annual Report ...** South Africa. Department of Higher Education and Training, 2016 ETDP SETA Scarce & Critical Skills Guide 2010/11, *Responding to the*

Educational Needs of Post-school Youth Nico Cloete, 2009 The research reflected in this volume indicates that in South Africa there are almost three million youth between the ages of 18 and 24 who are not in education training or employment a situation which points not only to a grave wastage of talent but also to the possibility of serious social disruption The authors in this work paint a picture of the enormous reservoir of human talent which exists in the country but is not provided with the means to develop Responding to the Educational Needs of Post School Youth attempts not only to sketch the scope and extent of the current post school educational crisis but also to explore possible solutions through collaboration in the higher education sector The findings reported here are a result of three distinctive but linked research components conducted by the Further Education and Training Institute University of Western Cape the Centre for Higher Education Transformation and the Southern Africa Labour and Development Research Unit University of Cape Town The research was funded by the Ford Foundation and the project conducted in consultation with the Department of Education The A to Z of Careers in South Africa ,2006
