Lion Hearted Andrew Loveridge, 2018-04-10 Until the lion has its own storyteller tales of the lion hunt will always glorify the hunter Zimbabwean proverb In 2015 an American hunter named Walter Palmer shot and killed a lion named Cecil The lion was one of dozens slain each year in Zimbabwe which legally licenses the hunting of big cats But Cecil's death sparked unprecedented global outrage igniting thousands of media reports about the peculiar circumstances surrounding this hunt At the center of the controversy was Dr Andrew Loveridge the zoologist who had studied Cecil for eight years In *Lion Hearted* Loveridge pieces together for the first time the fascinating life and murky details of this beloved lion's slaying In the tradition of *Born Free* and *Gorillas in the Mist* *Lion Hearted* chronicles Loveridge's long acquaintance with a host of charismatic lions that his team has tracked often from birth to death Born and raised in Zimbabwe Loveridge learned to love predators at the knee of his father an eminent herpetologist who stored baby crocodiles in the family bathtub After earning his doctorate at Oxford he seized an invitation to study the lions of Zimbabwe's Hwange National Park There he meets Stumpy Tail who despite her name has the dignity of the Queen of the Animal Kingdom Dynamite a venerable coalition leader who muscled out by younger males sets off on an incredible thirty seven day 137 mile journey to find a new home and Kataza who escapes another lion's claws and whom Loveridge twice saves from death at the hands of humans And of course there is Cecil Dethroned in an epic battle he forms an alliance with a former rival He also becomes a favorite of photographers and tourists until the fateful night when a Minnesota dentist and his hunting guide entice the trusting cat with a free meal Loveridge unravels the complexities of lion society and the dangers the cats face both within their ranks and from the outside world Despite their ruthless reputation lions can form deep emotional bonds females live in prides a sisterhood of mothers daughters sisters and aunts that can exhibit military precision when hunting in formation males band together in coalitions to vie for control of territory and the female prides They also display a wide range of emotional behavior including mourning the loss of their mates partners and cubs Africa's lion population is estimated to have shrunk by 43 percent in the last twenty years There may now be as few as 20 000 wild lions across the entire continent far fewer than the number of elephants While deploring the killing of lions for sport Loveridge does not believe that banning trophy hunting by itself will halt the decline of Africa's lion populations He sees greater threats in human population growth the loss of habitat to agriculture and the illegal trade in lion body parts for use in traditional medicines And he offers concrete proposals for averting the lion's extinction

More than a gripping detective story *Lion Hearted* is an exploration of humanity's relationship with the natural world and an attempt to keep this majestic species from disappearing. Lions are one of the most beloved animals on the planet. Loveridge observes, "They are the national symbol of no fewer than fifteen countries. Surely we can think of a better way to save the wild animals we love besides killing them." Mistaking Africa Curtis Keim, Carolyn Somerville, 2018-04-17. For many Americans the mention of Africa immediately conjures up images of safaris, ferocious animals, strangely dressed tribesmen and impenetrable jungles. Although the occasional newspaper headline mentions authoritarian rule, corruption, genocide, devastating illnesses or civil war in Africa, the collective American consciousness still carries strong mental images of Africa that are reflected in advertising, movies, amusement parks, cartoons and many other corners of society. Few think to question these perceptions or how they came to be so deeply lodged in American minds. *Mistaking Africa* looks at the historical evolution of this mind set and examines the role that popular media plays in its creation. The authors address the most prevalent myths and preconceptions and demonstrate how these prevent a true understanding of the enormously diverse peoples and cultures of Africa. Updated throughout, the fourth edition covers the entire continent, North and sub-Saharan Africa, and provides new analysis of topics such as social media and the Internet, the Ebola crisis, celebrity aid and the Arab Spring. *Mistaking Africa* is an important book for African studies courses and for anyone interested in unravelling American misperceptions about the continent.

Criticizing Ben Undeleted 0.1, Footprints in Obscurity Pramudith D. Rupasinghe, 2016-03-01. Pramudith D. Rupasinghe was born in Gampaha, Sri Lanka. His multi-disciplinary academic excellence in clinical psychology, political science, development studies and humanitarian diplomacy, along with linguistic competency in English, French and Russian, paved his path to enter the humanitarian arena. His humanitarian service has been extended to many parts of the world, working with various organizations including the Red Cross and Red Crescent Movement and the United Nations. *Footprints in Obscurity* is the refreshing experience of a brave young man who stepped in to the unknown a decade and a half ago. The author takes a walk down memory lane as he vividly narrates a series of real stories that are interconnected and built around the lives of men and women whom he had the rare opportunity to witness first-hand. A boy who was dreaming to discover the imaginary world that conquered his mind when his father was relating free-time stories realizes his dream after three decades, breaking frontiers and overcoming diverse hurdles on the way. He brings out the voices that were destined to be silent forever to the attention of the world audience in a forceful manner. *Footprints in Obscurity* can be introduced as an impressive effort by the author not only to narrate a true story about Africa but also to bring to light how childhood dreams shape one's adult life. Surein Peiris, Senior Officer, Humanitarian Diplomacy, IFRC Geneva.

Protecting Animals Within and Across Borders Charlotte E. Blattner, 2019. How can we protect animals more effectively both at home and abroad given the ongoing globalization of animal production? This book provides a catalogue of options for extraterritorial jurisdiction which states can employ to strengthen their animal laws. It offers top-down perspectives drawn from general

international law and trade law and complements them by a bottom up view from the perspective of animal law

Extending ecocriticism Peter Barry, William Welstead, 2017-10-30 This volume of essays explores the scope for a further extension of ecocriticism across the environmental humanities Contributors who include both established academics and early career researchers in the humanities were given free rein to interpret the brief The collection is unusual in that it considers collaboration between individuals both in the same discipline and across creative disciplines Subjects include familiar environments close to home and those such as Iceland and Antarctica where narratives of climate geology and ecology provide a stark backdrop to creative output A further innovation is the inclusion of essays on public art natural heritage interpretation and the visualisation and aesthetic impact of wind farms The book will be of interest to writers artists students and researchers in the environmental humanities and those with a general interest in the cultural response to the environment
