Celestial Chaos The Commons:

Celestial Chaos Jessica Marting, 2013-08-09 Lieutenant Honora Kharn lives and breathes the Kurran Empire's Special Ops unit. A highly skilled fighter pilot and warrior, she is selected to go back in time and thwart a plot by the Nym, the number one enemy of civilized space. When she returns home with a man critically injured by Nym agents, she finds herself dishonorably discharged from Special Ops and responsible for a man centuries from where he should be. Andrew Claybourne realized too late that the scientists he trusted to handle his final affairs were anything but. When he finds himself hundreds of years into the future with only the irritable and antisocial Lieutenant Kharn for company, it's difficult to find an upside to the otherwise interesting new time he's landed in. Unable to get along but strangely drawn to each other, they try to forge new lives for themselves as they travel through space together. But when the opportunity to go home surfaces, neither of them are sure if that's where they truly belong. **Celestial Chaos (The Commons Book 2)** Jessica Marting, 2023-08-15

But when the opportunity to go home surfaces, neither of them are sure if that's where they truly belong. *Afterlife* Jessica Marting, 2024-07-30 Ezra Thaddeus had a blissfully predictable life filled with drinking, womanizing, and looking out for himself until Claudia Drusilla Lucius crashed into it during a sojourn from hell. A Roman woman resurrected from the dead by unseelie fae magic, Claudia's inability to navigate the modern nineteenth century pulls at heartstrings. Ezra didn't know he had her, and he finds himself her guardian as she learns to be alive again. A trip to London to see a friend's art exhibit should have been the perfect way to introduce Claudia to his interests, and she's excited to see how much the city has changed since the Londinium she knew in the fourth century. But Ezra doesn't expect his feelings for her to shift into something more, and no one expected a demon to be accidentally summoned during the exhibit. Now that it's out and terrorizing London, it's up to the only two people in the city who know about the existence of supernaturals to stop it. After all, how can he tell her how he feels if he doesn't know if he'll live another day to do so. *Paradise* Jessica Marting, 2020-01-07 Petty sabotage knocks Matthias's freighter off course to an uncharted moon, but before he can right his ship, a distress call lures him to its hidden compound, and the beautiful woman trapped there. Confined to a luxurious prison for years, enhanced until she's a machine in a human body, Serena is desperate to escape, even if doing so could mean her death. But if she's going to die anyway, she may as well

really live while she still has the chance
