Timothy R. Levine

Cosmic Ships Truth And Lies About Ufos Other Humanities And Our Future:

Cosmic Ships Samael Aun Weor, 2010 Through stories from his own experience and analysis of well known events Weor shows that much of what we believe about extraterrestrials is false based on fear stubborn skepticism and outright lies

Encyclopedia of Deception Timothy R. Levine, 2014-02-20 The Encyclopedia of Deception examines lying from multiple perspectives drawn from the disciplines of social psychology sociology history business political science cultural anthropology moral philosophy theology law family studies evolutionary biology philosophy and more From the little white lie to lying on a resume to the grandiose lies of presidents this two volume reference explores the phenomenon of lying in a multidisciplinary context to elucidate this common aspect of our daily lives Not only a cultural phenomenon historically lying is a frequent occurrence in our everyday lives Research shows that we are likely to lie or intentionally deceive others several times a day or in one out of every four conversations that lasts more than 10 minutes Key Features More than 360 authored by key figures in the field are organized A to Z in two volumes which are available in both print and electronic formats Entries are written in a clear and accessible style that invites readers to explore and reflect on the use of lying and self deception Each article concludes with cross references to related entries and further readings This academic multi author reference work will serve as a general non technical resource for students and researchers within social and behavioral science programs who seek to better understand the historical role of lying and how it is employed in modern society Key Themes Advertising Marketing and Public Relations Animals and Nature Communication Deception in Different Cultures Entertainment Media and Sports Ethics Morality Religion Law Business and Academia Military Politics and Government includes espionage Psychology Clinical and Developmental Psychology Social Law Legal Forensic Social History lies in history famous liars hoaxes *Light and Dark* Trevor J. Hawkeswood, 2013 Trevor J Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime In *Light and Dark* he recounts some of these incredible interactions He believes that reality occurs on two separate but interwoven planes of existence the Earth plane and the multiple levels of the spiritual planes including the lower levels from where the dark souls of humans who have died reach out to us He has experienced more than one hundred sightings of the shadow people or black ghosts He credits guardian angels with saving him from harm or certain death on a number of occasions Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs He has personally experienced clairaudience voices from beyond and precognition or the ability to see the future His detailed account of a unique out of body experience OOB challenges what is known about this remarkable ability His OOB was unlike anything that has ever been described by others who have experienced it and he shares it all in *Light and Dark* But it hasn't all been safe or pleasant At eighteen he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him A comprehensive handbook for the paranormal enthusiast Hawkeswood's work also provides a glossary and reference list of

English language UFO books In Light and Dark he shares a lifetime of experiences ideas and theories about this fascinating field of study

Cosmic Ships Samael Aun Weor, 2025-02-01 In 1950 while discussing flying saucers with three other physicists at Los Alamos Scientific Laboratory Enrico Fermi asked Where is everybody as if to say if there is intelligent life elsewhere in the universe why do we have no proof For sixty years scientists and the public have debated the answer to this question yet none have considered what Samael Aun Weor explains in Cosmic Ships We are absolutely sure that the cannibals from Africa and the Amazon also felt very annoyed when they could not capture an explorer Regarding concrete facts about flying saucers people want to proceed like cannibals however it is clear that the crews of those cosmic ships who know human savagery very well are not willing to let themselves be ensnared since they know very well the fortune that awaits them that is the intellectual loafers would make them prisoners the ships would be seized and used for war etc Logical analysis of the facts demonstrates not only the existence of advanced humanities but their presence on our planet There are thousands of documented cases of unexplained ships hundreds of cases of governments hiding what they know and decades of an attempt to encourage the populace to discard the facts as fantasy or foolishness Through stories from his own experience and analysis of well known events Samael Aun Weor shows that much of what we believe about extraterrestrials is false based on fear stubborn skepticism and outright lies He explains how easy it is for advanced humanities to hide from us and why they must because we are so consumed by psychological defects like pride greed and envy that we are a danger to ourselves and the universe That is why they are here to understand why we are such savages and how to help us change for the better It is time for us to stop trying to capture or destroy them and welcome their assistance Based on clear logic facts and documented events Shatters myths about UFOs and alien visitors Grounded in both solid science and spiritual tradition

The Myth and Mystery of UFOs Thomas E. Bullard, 2016-10-17 When United Airlines workers reported a UFO at O Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune s website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don t such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard s wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our

place in the cosmos Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard's study is a sky watcher's guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth [Principles and Applications of the Twelve Universal Laws](#), 1996-01-01 God designed twelve basic laws for us to follow This workbook offers definitions of the twelve laws along with exercises activities and meditations to give you a better understanding of these laws and how to apply them to your daily life This book is great for adults and teens looking for positive change in their lives
