Cosmopolitan Political Thought Method Practice Discipline:

Cosmopolitan Political Thought Farah Godrej, 2011-10-05 Cosmopolitan Political Thought asks the question of what it might mean for the very practices of political theorizing to be cosmopolitan. It suggests that such a vision of political theory is intimately linked to methodological questions about what is commonly called comparative political theory, namely the turn beyond ideas and modes of inquiry determined by traditional Western scholarship. It is therefore an argument for applying the idea of cosmopolitanism understood in a particular way to the discipline of political theory itself. *Cosmopolitan*

Political Thought Farah Godrej, 2011 This title is a normative argument for applying the idea of cosmopolitanism to the discipline of political theory itself. It is inspired by two recent turns in political thought. **Cosmopolitan Political Thought**

Farah Godrej, 2011-08-01 Cosmopolitan Political Thought asks the question of what it might mean for the very practices of political theorizing to be cosmopolitan. It suggests that such a vision of political theory is intimately linked to methodological questions about what is commonly called comparative political theory, namely the turn beyond ideas and modes of inquiry determined by traditional Western scholarship. It is therefore an argument for applying the idea of cosmopolitanism understood in a particular way to the discipline of political theory itself. As Farah Godrej argues, there are four crucial components of this cosmopolitan intervention: the texts under analysis, the methods for interpreting non-Western texts and ideas, the application of these ideas across geographical and cultural boundaries, and the deconstruction of Eurocentrism. In order to be genuinely cosmopolitan, Godrej states, political theorists must reflect on their perspectives inside and outside various traditions and immerse themselves in foreign ideas, languages, histories, and cultures, ultimately relocating themselves within their disciplinary homes. The result will be a serious challenge to accepted solutions to political life. **Research**

Handbook on the History of Political Thought Cary J. Nederman, Guillaume Bogiari, 2024-06-05 This insightful Handbook reviews the key frameworks guiding political scientists and historians of political thought. Comprehensive in scope, it covers historical methodology, traditions, epochs, and classic authors and texts spanning from ancient Greece until the nineteenth century. *The Oxford Handbook of Comparative Political Theory* Leigh K. Jenco, Murad Idris, Megan Christine Thomas, 2020 Chapters emphasize exploration of substantive questions about political life in a range of global contexts with attention to whether and how those questions may be shared, contested, or reformulated across differences of time, space, and experience. An interdisciplinary volume that bridges the gaps between various traditions, regions, and concerns regarding political theory. Provides tags and keywords to aid navigation of the handbook and help readers trace disruptions, thematic connections, and conceptual contrasts across entries. *Cities and Identities* Daniel A. Bell, Avner de Shalit, 2025-05-09 This book illustrates how cities possess unique normative identities referred to as *ethoses* and how the residents shape and perceive them. The question of identity and which social relations constitute it has been a central topic in philosophy and social science for centuries. While the state played a key role in shaping identity during the 20th century, its influence has

waned in recent years due to market pressures international agreements migration and institutions like the IMF which limit state autonomy hence its ability to design policies that sustain and enhance particular national identities This collection argues that cities are emerging as new sources of identity possessing their own ethos distinctive normative characters The contributors explore this idea through six cities London Qingdao Tokyo Mumbai Istanbul and Amsterdam Their analysis draws on extensive document research personal experiences urban exploration and interviews with residents from diverse social ethnic and gender backgrounds This book was originally published as a special issue of Critical Review of International Social and Political Philosophy

Beyond the Internet Rita Figueiras, Paula do Espírito Santo, 2015-12-22 The western economic and financial crisis began with the collapse of Lehman Brothers in 2008 and led the European Union countries into recession After this governments started to implement austerity measures such as cuts in public spending including public subsidies and jobs and rising prices In this context Europe started to experience a wave of protest movements Individuals started to use the manifold interactive digital media environment to both fight against the austerity measures and find alternative ways of claiming their democratic rights Inspired by the 2011 Arab Spring and the Occupy Wall Street movement in New York USA the Occupy LSX encampment in Central London UK The Outraged Los Indignados 15M encampment in Central Madrid Spain the Syntagma Square s Outraged movement in Athens Greece and the March 12th Movement in Lisbon Portugal although short lived epitomize an emerging alternative politics and participation via the media This wave has promoted a debate on how the realm of politics is changing as citizens broaden their ideas of what political issues and participation mean Beyond the Internet examines the technological dimension of the recent wave of protest movements in the United Kingdom Spain Portugal Greece and Ireland Offering an opportunity to achieve a better understanding of the dynamics between society politics and technology this volume questions the essentialist attributes of the Internet that fuel the techno centric discourse The contributors illustrate how all these protest movements were active in the social media and garnered high levels of media attention and public visibility in spite of their failure to achieve their political goals As intra elite dissent was pivotal in understanding the Arab uprisings the coalition of national ruling elites with European institutions in terms of austerity strategy is essential in understanding the limits of media technology power and therefore the dissociation between communication and representative power

Creolizing Rousseau Jane Anna Gordon, Neil Roberts, 2014-12-17 In 1967 C L R James the much celebrated Afro Trinidadian Marxist stated that he knew of no figure in history who had such tremendous influence on such widely separated spheres of humanity within a few years of his death as the eighteenth century philosopher Jean Jacques Rousseau While this impact was most pronounced in revolutionary politics inspired by political theories that rejected basing political authority in monarchy aristocracy and the Church it extended to European literature to philosophies of education and the articulation of the social sciences But what particularly struck James about Rousseau was the strong resonance of his work in Caribbean thought and politics This volume illuminates these

resonances by advancing a creolizing method of reading Rousseau that couples figures not typically engaged together to create conversations among people of seemingly divided worlds in fact entangled by colonizing projects and histories Doing this enables us to grapple with the meaning of creolization and the full range of Rousseau's legacies not only in contemporary Western Europe and the United States but in the Francophone colonies territories and larger Global South

Politics and the Concept of the Political James Wile, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer displace or moralize politics James Wile's book takes the next step from criticizing contemporary political theory to showing what a more politics centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber Carl Schmitt Paul Ricoeur Hannah Arendt Sheldon Wolin Claude Lefort and Ernesto Laclau and Chantal Mouffe These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors They represent state centered republic centered and society centered conceptions of politics as well as realist authoritarian idealist republican populist and radical democratic traditions of political thought This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics centered political theory **Politics and the Concept of the Political** will be a useful resource to general audiences as well as to specialists in political theory

The Limits of Settler Colonial Reconciliation Sarah Maddison, Tom Clark, Ravi de Costa, 2016-11-18 This book investigates whether and how reconciliation in Australia and other settler colonial societies might connect to the attitudes of non Indigenous people in ways that promote a deeper engagement with Indigenous needs and aspirations It explores concepts and practices of reconciliation considering the structural and attitudinal limits to such efforts in settler colonial countries Bringing together contributions by the world's leading experts on settler colonialism and the politics of reconciliation it complements current research approaches to the problems of responsibility and engagement between Aboriginal and non Aboriginal peoples
