workings of Weight Watchers is that they have replaced the word calories with dots Each food has its value in points The

plan is organized so that the diet can use only a certain number of points on a given day The Flex Point system used by

Weight Watchers helps control the amount of food you can eat For example you are entitled to a total of 35 flexible points per

week which allows you to swallow your desires Weight Watchers requires you to attend lessons from your diet at a local

center There you should meet a weight loss consultant who will then help you plan your personalized diet plan The planning

does not stop there you must return regularly to the advisor to update your policy This constant stream of meetings allows

them to monitor their weight loss process more closely and make the necessary adjustments if required Therefore always
