*Cancer in the Lives of Older Americans* Sarah H. Kagan, 2012-02-23 The oldest old individuals aged 85 and above are the most rapidly growing segment of American society And although more than a third of cancer occurs in people over 75 years of age their tumors are less fully diagnosed and often less fully treated than those in younger patients Ageism may account for this discrepancy why intervene if an older man or woman with cancer doesn't have long to live anyway Yet older people often tolerate chemotherapy surgery and radiation as well as younger patients while continuing to maintain their quality of life for years to come The lack of clinical trials among this age group results in a deficit of knowledge regarding how to treat cancer in older adults Little has been written to guide clinicians social scientists families and individuals In *Cancer in the Lives of Older Americans Blessings and Battles* Sarah H Kagan writes from the perspective of more than twenty years of practice inquiry and education as a nurse She uses anecdotes and case studies to illustrate important points about cancer among older adults The book follows the story of Mrs Eck a woman in her 80s diagnosed with pancreatic cancer Mrs Eck's situation sets the stage for a discussion of cancer which too often focuses on cells and drugs diagnoses and prognoses without looking more closely at the people who experience the disease Chapters offer varied assessments of what it means to be old and have cancer in our society as Kagan explores other real experiences of cancer for older adults alongside information that will prove essential to patients their families scholars and clinicians *Palliative and End of Life Care, An Issue of Nursing Clinics* Mimi Mahon, 2010-09-28 This issue of *Nursing Clinics* Guest Edited by Mimi Mahon features subject topics such as Understanding Children's Involvement in Medical Decision Making Symptom Management at End of Life Assessing respiratory distress when the patient can't self report Barriers to Palliative Care Legislative Issues End Stage Liver Disease Symptoms Dying children Creating opportunities out of a Last Chance Decision making in palliative care Discussing a family member's serious illness children's and families perspectives Living with cognitive impairments in Long Term Care Palliative Care Withdrawal of Life Sustaining Therapy The patient and family perspectives Living with cancer Palliative care concepts in the sickle cell population [Longevity Unlocked](#) Nolan Blackwood, 2024-09-05 *Longevity Unlocked* The Secrets to a Longer Healthier Life by Nolan Blackwood invites readers on a groundbreaking journey into the science of aging and longevity Challenging the traditional view of old age as frail and decrepit Blackwood reveals how recent studies and cutting edge research are transforming our understanding of what it means to live a long vibrant life Drawing from intriguing findings in a Boston suburb where septuagenarians exhibit remarkable physical mental and emotional vitality and the latest advancements in genetic and dietary interventions for laboratory mice this book uncovers the secrets to extending not just lifespan but also healthspan As we approach 2030 the possibility of a radically different perspective on time ambition and personal fulfillment is becoming increasingly real *Longevity Unlocked* combines compelling scientific insights with practical advice to inspire and guide anyone eager to embrace a future of enhanced well being and vitality **Weekly Compilation**
