Celebration Society Jonathan Kolber:

A Celebration Society Jonathan Kolber, 2015-12-01 Accelerating automation threatens to displace multitudes of workers. The proposals to deal with the crisis increased education and guaranteed minimum income are insufficient. Here is a new solution from Jonathan Kolber, author of *Adam Smith's Wealth of Nations*. **ENDORSEMENTS** A far-reaching elucidation of many of today's and more importantly tomorrow's global problems, but he has also done that rare and difficult thing: provided a thoughtful and detailed solution to them. The coming economic disruption that will be caused by automation and robotics in the next few decades will create enormous social upheaval, and whether that effect is negative or positive depends on how many people will seriously embrace the principles in this book. Alexander R. Bandar, Ph.D., Founder, CEO of the Columbus Idea Foundry. This is an unusual book that you have to read. Most works on the future are familiar treatments of fairly well-known issues, whereas Jonathan Kolber has given us exactly what the title suggests: a celebration of the marvelous breakthroughs ahead and their profound possibilities. Well-researched and beautifully written, this book will inspire you. William E. Halal, George Washington University and President of TechCast Global. Author, *Technology's Promise*. Expert knowledge on the transformation of business and society. Well-researched and instructive, this is a must-read for people interested in creating a more positive and meaningful society. Brian Vicente, co-director of Colorado's Amendment 64 campaign. An excellent book which is a par excellence achievement that connects 26 widely disparate domains. Very well written, every chapter and page had great insights. Rohit Sharma, Founder of Perchingtree. Author, *Luck, Reengineering and Mental Model Innovation*. Kolber has created the blueprint for growth and effortless prosperity by shifting from the competitive model to the cooperative model. Berny Dohrmann, Founder of CEO Space International. Author, *Redemption: The Cooperation Revolution*. The author takes a systematic look at every function of a civilization, from economics to well-being to governance, and paints a picture of a civilization that is based on abundance instead of scarcity. Infoversant Book Reviews. *India's Futuristic Democracy - Threats of Constitutional Gaps and Digital Era*. PRAHALAD RAO, 2022-12-12 India is moving towards becoming an intelligent and industrious nation in the world, but unmoving in its installing pillars: political stability and communal conflagration. Every citizen's welfare is the only way to make the nation great. A nation is built not by one Faith but by all the Faiths together as an integral part of the Nation. On 15th August 2022 we celebrated 75th Year of our Independence that looked decorative than democratic. Former is showmanship and latter is workmanship. Nation's wealth should make all the sectors healthy. The Constitution defines Constituents or Organs but not the Pillars or the making up the Gaps. The Gaps which our Constitution makers left open was to test the sensibility, prudence, and wisdom of the generations to come. The Gaps have the strength to generate orderliness in the democracy. Their ignorance or indifference masked the working of democracy. Digital Technology: The World Of Our Own.
