Cyrano de Bergerac Edmond Rostand, 2025-10-21 No master to serve no leash to bear I walk as I please and I speak as I dare Poet soldier and philosopher Cyrano de Bergerac burns with brilliance He is fiercely funny and intensely romantic but behind the veil of wit is one large problem his nose Haunted by doubts and too proud to beg he watches from the shadows as Roxane bold beautiful and seemingly unreachable falls for another man Christian But this handsome tongue tied young suitor knows his only hope of charming Roxane is to seduce her with words And only one person can help Director Simon Evans Staged and Debris Stevenson Poet in da Corner bring new life to Edmond Rostand's thrilling lyrical tale of love and lies longing and disguise This edition was published to coincide with the Royal Shakespeare Company production at the Swan Theatre in September 2025 Cyrano de Bergerac Edmond Rostand, 2004-11 These timeless Enriched Classics editions include a concise Introduction that gives readers detailed background information on each work a chronology of the author's life and career and a timeline of significant events to provide historical context Original **Cyrano de Bergerac** Anthony Burgess, 2000 Set in Paris in the time of the Three Musketeers this witty comedy of love and honor features the romantic Cyrano a soldier poet whose abnormally long nose keeps him from Roxane the one he loves **Thinking with Maps** Bertram C. Bruce, 2021-05-15 A 2022 Choice Reviews Outstanding Academic Title Spatial reasoning which promises connection across wide areas is itself ironically often not connected to other areas of knowledge Thinking with Maps Understanding the World through Spatialization addresses this problem developing its argument through historical analysis and cross disciplinary examples involving maps The idea of maps here includes traditional cartographic representations of physical environments but more broadly encompasses the wide variety of ways that visualizations are used across all disciplines to enable understanding to generate new knowledge and to effect change The idea of thinking with maps is also used broadly Maps become not simply one among many items to learn about but indispensable tools for thinking across every field of inquiry in a way similar to that of textual and mathematical language Effective use of maps becomes a way to make knowledge much as writing or mathematical exploration not only displays ideas but also creates them The book shows that maps for thinking are not just a means to improve geographic knowledge as valuable as that may be Instead they provide mechanisms for rejuvenating our engagement with the world helping us to become more capable of facing our global challenges This book has a broader aim It is fundamentally about general principles of how we learn and know It calls for a renewed focus on democratic education in which both the means and ends are democratic Education just as the political realm should follow Dewey's dictum that democratic ends need democratic methods for their realization Maps and mapping are invaluable in that endeavor **Cyrano de Bergerac** Anthony Burgess, 1971 One of the most beloved heroes of the stage Cyrano de Bergerac is a magnificent wit who despite his many gifts feels that no woman can ever love him because of his enormous nose He adores the beautiful Roxanne but lacking courage decides instead to help the tongue tied but winsome

Christian woo the fair lady by providing him with flowery sentiments and soulful poetry Roxanne is smitten but is it Christian she loves or Cyrano A triumph from the moment of its 1897 premiere Cyrano de Bergerac has become one of the most frequently produced plays in the world Its perennial popularity is a tribute to the universal appeal of its themes and characters
