By Design Science And The Search For God:

By Design Larry Witham, 2003 At the heart of By Design are two inter related movements One is the science and religion dialogue which stretches from the laboratories of Nobelists to inner sancta of the Vatican This dialogue attempts to build bridges between two worlds formerly thought to be implacably hostile and incompatible The other is the intelligent design movement which by reviving a natural theology of design in nature has challenged the Darwinian strongholds in science and public education Larry Witham introduces some of the most colorful characters in these movements and summarizes the scientific developments that have made this dramatic new dialogue possible

For the Rock Record Jill S. Schneiderman Ph.D, Warren D. Allmon, 2009-04-06 According to the idea of intelligent design nature's complexity is the result of deliberate planning by a supernatural creative force To date most scientific arguments against this form of creationism have been made by evolutionary biologists In this volume a team of earth scientists reveals that the flaws of intelligent design are not limited to the biological sciences Indeed the geological sciences offer some of the best refutations of intelligent design arguments For the Rock Record is dedicated to the proposition that the idea of intelligent design should be of serious concern to everyone Editors Jill S Schneiderman and Warren D Allmon have gathered leading figures from the geological community with a wide range of viewpoints that go to the heart of the debate over what is and is not science The purveyors of intelligent design theories and its kindred philosophies threaten the scientific literacy that our society needs by confusing faith and the practice of science This collection offers a much needed response

Letter to an Atheist Michael Patrick Leahy, 2007 In this hard hitting and intellectually powerful response to Sam Harris Letter to a Christian Nation Michael Patrick Leahy exposes the intellectual dishonesty behind Mr Harris brand of Christian bashing atheistic evangelism Leahy points out in devastating detail the numerous factual misrepresentations in Mr Harris book for instance debunking Mr Harris outrageous claim that 50% of all Americans believe the universe is only 6 000 years old the facts show the number is 18% at most and dismantles the simplistic solutions proposed by Mr Harris Stop

violence by ending all faith Easier to try to stop the ocean tides Limit the rights of Christians to participate in the political process In the name of justice then Harris would oppress Christians creating a world wide second class of citizens Follow the model of fascists in Europe in dealing with the threat of Islamic fundamentalism Even fellow atheist Christopher Hitchens calls such a solution repugnant Seekers of the truth from all faiths should run not walk to their keyboard or local book store and purchase Michael Patrick Leahy s Letter to an Atheist Reviews Finally a strong Christian voice addresses the intellectual dishonesty of atheistic evangelism Christine Schaub best selling author of The Longing Season the story of John Newton and Amazing Grace Michael Patrick Leahy skillfully debunks Harris charge that serious Christians and Islamic radicals should be equally feared He also exposes the bigotry and distortion typically shown by secularists when addressing Intelligent Design More importantly Leahy shows that Harris proposed utopia in which religion is caged and tamed by the secularists has already been shown to produce a world that most do not care to inhabit Ralph Seelke Ph D Professor Biology University of Wisconsin Superior Michael Patrick Leahy s book is a substantive critique of the work of Sam Harris in Letter to a Christian Nation Leahy shows how wrong minded and frankly lopsided Harris view of reality ends up being Good intellectual stuff Dr Bob Harrington Lead Pastor of Harpeth Community Church Franklin Tennessee A must read for Christians and non Christians who truly seek the truth about the toughest long standing issues confronting humanity Mr Leahy has used a logical step by step reasoned and well referenced approach to engage and refute an attack on Christian positions and principles The material is well worth reading and debating I was especially impressed by the defense of Christians track record in opposing slavery With the recent public attention to the life and contribution of William Wilberforce this chapter could not be more timely Reginald Finger MD MPH Independent medical researcher About the Author Michael Patrick Leahy is a magna cum laude graduate of Harvard and has an MBA from Stanford His professional career has been in technology marketing For more information about the author go to his website at <http://www.michaelpatrickleahy.com> *Beyond Belief* Robert P. Vande Kappelle, 2012-09-17 The current age marks the transition from modernity to postmodernity a period as impactful to the Western sensibility as any previous era The role of religion and the future of Christianity are at stake At this time of transition many thoughtful individuals find themselves at a quandary having reached a critical stage in their spiritual journey Prompted by academia science reason culture and their own experience they feel compelled to choose between the beliefs they inherited as children and the claims of science reason pluralism and secularism Beyond Belief suggests that one need not take an either or approach on these issues there is a better way one that embraces adventure and ambiguity science and religion reason and faith evolution and creation and finds ways to live creatively with realities for which there are no easy explanations Building on a paradigmatic journey of faith that involves three stages precritical critical and postcritical understanding Beyond Belief describes the quest for God and for authentic faith in the twenty first century The key point for this understanding is to replace belief with faith acknowledging that belief in doctrines is not central since they are

themselves unprovable This new theological perspective requires rethinking many of our cherished doctrines including our understanding of God Jesus Scripture prayer miracles and revelation **Descartes Was Right! Souls Do Exist and Reincarnation Proves It** Casimir J. Bonk,2010-02-04 Challenge the scientific denial of the soul s existence with a book that proves that the brain is not the sole explanation behind human thought and behavior Casimir J Bonk a longtime engineer and student of metaphysics has found physical scientific evidence of the nonphysical soul through his investigations of reincarnated subjects who can recall experiences from previous lives Discover why Descartes Was Right Souls Do Exist and Reincarnation Proves It For instance Dr Ian Stevenson and others have shown that reincarnated subjects can recall details from past lives proving that the brain is not the prime location of memory If memory were physical it would cease upon death By contrasting metaphysical views of the world with scientific theories an original description of human duality explains the true nature of humanity Using an engineers approach uncover how the brain really works and why science fails to explain the memories of the reincarnated Close the gap between the physical and nonphysical worlds and answer the questions about human nature that have haunted the world forever in Descartes Was Right Souls Do Exist and Reincarnation Proves It
