C P Snow And The Struggle Of Modernity:

C.P. Snow and the Struggle of Modernity John De La Mothe,1992-07-01 Snow is often regarded as a late Victorian liberal who had little to say about the modernist period in which he lived and wrote John de la Mothe however convincingly challenges this analysis with an insightful reassessment of Snow s place in twentieth century thought He argues that Snow s life and writings reflect a persistent struggle with the nature of modernity This is most notable de la Mothe reveals in the Strangers and Brothers sequence of novels and the provocative thesis in The Two Cultures and the Scientific Revolution These works along with the body of Snow s work and the multiplicity of his life manifest Snow s belief that science and technology are at the centre of modern life

C. P. Snow and the Struggle of Modernity John de la Mothe,2013-09-06 The condition of modernity springs from that tension between science and the humanities that had its roots in the Enlightenment but reached its full flowering with the rise of twentieth century technology It manifests itself most notably in the crisis of individuality that is generated by the nexus of science literature and politics one that challenges each of us to find a way of balancing our personal identities between our public and private selves in an otherwise estranging world This challenge which can only be expressed as the struggle of modernity perhaps finds no better expression than in C P Snow In his career as novelist scientist and civil servant C P Snow 1905 1980 attempted to bridge the disparate worlds of modern science and the humanities While Snow is often regarded as a late Victorian liberal who has little to say about the modernist period in which he lived and wrote de la Mothe challenges this judgment reassessing Snow s place in twentieth century thought He argues that Snow s life and writings most notably his Strangers and Brothers sequence of novels and his provocative thesis in The Two Cultures and the Scientific Revolution reflect a persistent struggle with the nature of modernity They manifest Snow s belief that science and technology were at the center of modern life

C.P. Snow N. Tredell,2012-09-24 Novelist and cultural commentator C P Snow was a large and controversial presence in his lifetime but his work has been largely neglected since his death in 1980 This is the first 21st century book to offer a clear informed and sympathetic survey of all his novels and major non fiction books and to affirm their importance for the world today

Being Modern Robert Bud,Paul Greenhalgh,Frank James,Morag Shiach,2018-10-10 In the early decades of the twentieth century engagement with science was commonly used as an emblem of modernity This phenomenon is now attracting increasing attention in different historical specialties Being Modern builds on this recent scholarly interest to explore engagement with science across culture from the end of the nineteenth century to approximately 1940 Addressing the breadth of cultural forms in Britain and the western world from the architecture of Le Corbusier to working class British science fiction Being Modern paints a rich picture Seventeen distinguished contributors from a range of fields including the cultural study of science and technology art and architecture English culture and literature examine the issues involved The book will be a valuable resource for students and a spur to scholars to further examination of culture as an interconnected web of which

science is a critical part and to supersede such tired formulations as Science and culture The Two Cultures C. P. Snow, Charles Percy Snow, 2012-03-26 This fiftieth anniversary printing of *The Two Cultures* and its successor piece *A Second Look* in which Snow responded to the controversy four years later features an introduction by Stefan Collini charting the history and context of the debate its implications and its afterlife *The People We Meet in Stories* Robert McParland, 2020-10-20 Novels bring us into fictional worlds where we encounter the lives struggles and dreams of characters who speak to the underlying pulse of society and social change In this book post World War II America comes alive again as literary critic Robert McParland tilts the rearview mirror to see the characters that captured the imaginations of millions of readers in the most popular and influential novels of the 1950s This literary era introduced us to Holden Caulfield Augie March Lolita and other antiheroes Together with popular culture heroes such as Perry Mason and James Bond they entertained thousands of readers while revealing the underlying currents of ambition desire and concern that were central to the American Dream Ralph Ellison s *Invisible Man* and James Baldwin s *Go Tell It on the Mountain* and Giovanni sRoom explored racial issues and matters of identity that reverberate still today The works of Jack Kerouac the Beat poets Allen Ginsberg and Gregory Corso and the clever and creative William S Burroughs and his *Naked Lunch* challenged conventional perspectives *The People We Meet in Stories* will appeal to readers discovering these works for the first time and to those whose tattered paperbacks reveal a long relationship with these key works in American literary history **Birkbeck** Joanna Bourke, 2022-08-11 Birkbeck traces the 200 year history of Birkbeck University of London from its founding at a time when social elites deplored the notion of educated working people to the present day Joanna Bourke writes a lively history of the institution and how it contributed to the shaping of modern British higher education Two hundred years ago Birkbeck was founded as the London Mechanics Institution LMI When it was established in 1823 one third of all men and half of all women were unable to read or write British elites were vehemently hostile to educating working people The country was in political turmoil and it was feared that education would destroy society This was the context in which the LMI was established From its foundation it was unique Birkbeck traces its history from 1823 to the present with Joanna Bourke using the history of Birkbeck to reflect on life and culture in London over the past two centuries What does it mean to be educated Why have Birkbeck s students been prepared to give up so much in order to study for a higher degree How does education help us become fully human and self fulfilled by learning how to use all our faculties knowledge imagination sympathy The story of Birkbeck contains some blood oceans of scholarly sweat and not a few tears But it is also a story of laughter intellectual excitement scholarly eccentricity collective as well as personal ambition and most of all the quirky passions and personalities that make up the Birkbeck community It is a story of a unique university but also of higher education of Britain It shows how knowledge can empower people to better themselves and improve the world **Encyclopedia of the British Novel** Virginia Brackett, Victoria Gaydosik, 2015-04-22 Praise for the print edition comprehensive Recommended **Picturing**

Science, Producing Art Peter Galison, Caroline A. Jones, 2014-02-04 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company *Anti-computing* Caroline Bassett, 2022-02-22 We live in a moment of high anxiety around digital transformation Computers are blamed for generating toxic forms of culture and ways of life Once part of future imaginaries that were optimistic or even utopian today there is a sense that things have turned out very differently Anti computing is widespread This book seeks to understand its cultural and material logics its forms and its operations Anti Computing critically investigates forgotten histories of dissent moments when the imposition of computational technologies logics techniques imaginaries utopias have been questioned disputed or refused It asks why dissent is forgotten and how under what circumstances it revives Constituting an engagement with media archaeology medium theory and working through a series of case studies this book is compelling reading for scholars in digital media literary cultural history digital humanities and associated fields at all levels
