Michael Bratman, 2007 This is a collection of published and unpublished essays by distinguished philosopher Michael E Bratman of Stanford University They revolve around his influential theory known as the planning theory of intention and agency **Shared and Institutional Agency** Michael Bratman, 2022 Our human lives involve remarkable forms of practical

organization diachronic organization of individual activity small scale organization of shared action and the organization of institutions In this book Michael Bratman argues that the key to these multiple inter related forms of human practical organization is our capacity for planning agency Drawing on earlier work on the roles of planning agency in our human cross temporal and small scale social organization it focuses on the role of planning agency within our organized institutions whether a religious congregation a small business a professional association a city council a university a non profit organization a corporation a political party a legal system or a democratic state Shared and Institutional Agency draws on ideas inspired by H L A Hart that our organized institutions are rule guided and that to understand this we need a theory of social rules This book develops a planning theory of social rules and puts forth an organized institution as involving authority according social rules of procedure This supports a model of organized institutions that makes room for pluralistic divergence and leads to a model of institutional intention and institutional intentional agency The view that emerges sees our capacity for planning agency as a core capacity that underlies not only string quartets and informal social rules but also the rule guided structure of organized institutions and institutional agency **Structures of Agency** Michael E.

Praxiology and the Reasons for Action Piotr Makowski, 2017-07-05 This volume explores two traditions in practical philosophy action theory which concerns the nature of motivation for human action and praxiology the study of human action By bringing different perspectives together the volume strives to contribute to the international debate on theories of reasons for action as a philosophy of action The volume consists of three main parts The first part Reasons for Action bridges the gap between reasons for action theories and praxiology The second part of the volume titled Theories of Action explores philosophical approaches to action Finally in the third part Applications the contributors show several ways of applying praxiological ways of thinking and acting to the problems of reflection assessment solving action incompleteness and knowledge management The ultimate goal of this volume is to broaden the scientific view of action to establish a perspective on action that is permeated by moral theories on the one hand and accounts focused on efficiency and economy of action on the other hand This work is the newest volume in Transaction s Praxiology series

Collective Action, Philosophy and Law Teresa Marques, Chiara Valentini, 2021-11-29 Collective Action Philosophy and Law brings together two important strands of philosophical analysis It combines general philosophical inquiry into collective agency with analyses of specific questions about plural entities and activities in the legal domain These are issues of growing interest in areas of philosophy like action theory and social ontology as well as in philosophy of law The book contains 13 original chapters written by an international team of leading philosophers and legal theorists and is divided into 4 parts The nature of law and of legislative intention Practical reasoning and duties Causality blameworthiness and responsibility Citizens states and institutions These sections cut across and build on different accounts to advance the debate on classical and new issues in collective agency Each part also features legal philosophical analyses that draw on general accounts of collective agency to cast new light on the law descriptive as well as normatively Collective Action Philosophy and Law is the first major interdisciplinary and multi authored work bridging legal and philosophical approaches to collective agency As such it is essential reading for students and researchers of philosophy of law ethics political philosophy jurisprudence and legal theory

Conversations on Human Action and Practical Rationality Susana Cadilha, Carlos Mauro, Sofia Miguens, 2013-07-16 This volume brings together leading scholars in the study of practical rationality and human action namely Alfred Mele Hugh McCann Michael Bratman George Ainslie Daniel Hausman and Joshua Knobe They were interviewed by the editors in a project based at the Institute of Philosophy of the University of Porto structured around the questions 1 In your view what are the most central or important problems in the philosophy of action 2 For some or all of the following action agency agent what do they contrast with most significantly 3 Which of these are liable to be rational irrational 4 In what sense is the thing to do to be decided by what is rational Are there limits of rationality 5 What explains action and how What is the role of deliberation in rationality 6 How is akrasia possible if you think it is 7 How do you think your own work has contributed to the field What are your plans for future research The outcome is of great

interest not only for philosophers but also for economists psychologists political scientists and sociologists

Time in Action Carla Bagnoli, 2022-03-24 This book explores the role of time in rational agency and practical reasoning Agents are finite and often operate under severe time constraints Action takes time and unfolds in time While time is an ineliminable constituent of our experience of agency it is both a theoretical and a practical problem to explain whether and how time shapes rational agency and practical thought The essays in this book are divided into three parts Part I is devoted to the temporal structure of action and agency from metaphysical and metaethical perspectives Part II features essays about the temporal structure of rational deliberation from the perspective of action theory and theories of practical reasoning Part III includes essays about the temporal aspects of failures of rationality Taken together the essays in this book shed new light on our understanding of the temporality of agency that coheres with our subjective sense of finitude and explains rational agency both in time and over time Time in Action will be of interest to advanced students and researchers working on the philosophy of time metaphysics of action action theory practical reasoning ethical theory moral psychology and rational justification

Ethics and Phenomenology Mark Sanders, J. Jeremy Wisniewski, 2012-03-22 Ethics and Phenomenology is a collection of essays that explore the relationship between moral philosophy and the phenomenological tradition Phenomenology is a vast and rich philosophical tradition which seeks to explain how we perceive the world This in turn involves questions about one's relationship to the world and how one both acts and should act in the world For this reason phenomenology entails an ethics even if such an ethics is not always apparent in the work of phenomenological thinkers The book is devoted to two central tasks Section One offers essays exploring the resources available to moral philosophy in the work of the major phenomenologists of the 20th century including Husserl Heidegger Merleau Ponty Sartre and others Part Two consists of essays demonstrating the way that the phenomenological method can facilitate advances in our thinking through the exploration of contemporary ethical issues including environmentalism intellectual property parenting and others
