point when it is forced to choose between a New World Order fascist government committed to rapid depopulation or a world of peace and justice Hellyer demonstrates that God is alive well and everywhere and that humanity's choice is between the Dark and the Light To follow the Light means giving up atomic weapons replacing the oil economy with clean zero point energy developed by Americans in the 1960s having governments create 34 percent of all new money for public purposes rather than borrowing it from the 62 elite banking families a reconciliation of the two main branches of Islam and a just settlement of the Israeli Palestinian dispute to bring peace to the Middle East Finally it will be necessary for all countries races and faiths especially young people to forgive past atrocities and work together in common purpose to save the heritage they have in common

Extra-Planetary Experiences Thomas James Streicher, 2012-03-19 Deep insights into human consciousness revealed by accounts of travel to other planets moons and stars Includes interviews with 7 people who have had extra planetary experiences including astronaut Edgar Mitchell Norma Milanovich and Ingo Swann Reveals the positive effects of these events on the interviewees lives from cosmic consciousness and loss of fear of death to enhanced spiritual insights Contextualizes these accounts with 19th and 20th century reports as well as alien human encounters in ancient Sumerian Vedic Egyptian Tibetan and biblical records Since prehistoric times all cultures report encounters with strange beings and crafts from the sky as well as stories of extra planetary experiences that is travel to other planets moons and stars In the case of modern accounts these benevolent alien human interactions bear striking resemblance to one another even among people with no knowledge of other alien human claims And all experiences marked a spiritual turning point in the person's life providing a loss of the fear of death enhanced spiritual insights a connection to cosmic consciousness or increased motivation to be of service to humanity Exploring fresh dimensions of ET contact and extra planetary experience XPE using Harvard professor and researcher John Mack's witnessing approach to paranormal incidents Thomas Streicher interviews 7 renowned people who have experienced XPE including astronaut Edgar Mitchell Norma Milanovich and Stanford tested remote viewer Ingo Swann and shares the positive spiritual effects of XPE on their lives Placing their experiences in the context of historical accounts of alien human encounters from ancient Sumerian Vedic Egyptian Tibetan Hopi Dogon and biblical records as well as 19th and 20th century testimonies from Orfeo Angelucci Billy Meier Elizabeth Klarer and others the author reveals the similarities of these experiences with those of his interviewees Streicher shows these experiences are not contrived hallucinations but genuine transformative spiritual awakenings akin to near death and out of body experiences

The Borderlands of Science Michael Shermer, 2001-05-17 As author of the bestselling *Why People Believe Weird Things* and *How We Believe* and Editor in Chief of *Skeptic* magazine Michael Shermer has emerged as the nation's number one scourge of superstition and bad science Now in *The Borderlands of Science* he takes us to the place where real science such as the big bang theory borderland science superstring theory and just plain nonsense Big Foot collide with one another Shermer argues that science is the best lens through which to view the world but he recognizes that

it is often difficult for most of us to tell where valid science leaves off and borderland science begins To help us Shermer looks at a range of topics that put the boundary line in high relief For instance he discusses the many theories of everything that try to reduce the complexity of the world to a single principle and shows how most fall into the category of pseudoscience He examines the work of Darwin and Freud explaining why one is among the great scientists in history while the other has become nothing more than a historical curiosity He also shows how Carl Sagan's life exemplified the struggle we all face to find a balance between being open minded enough to recognize radical new ideas but not so open minded that our brains fall out And finally he reveals how scientists themselves can be led astray as seen in the infamous Piltdown Hoax Michael Shermer's enlightening volume will be a valuable aid to anyone bewildered by the many scientific theories swirling about It will help us stay grounded in common sense as we try to evaluate everything from SETI and acupuncture to hypnosis and cloning

Did Adam and Eve Have Navels? Martin Gardner, 2000 A witty critique of New Age beliefs and scientific fraud Topics debunked include paranormal events Freud's theory of dreams shamanism and UFOs As well as providing laughter for sceptics the book will also give solace and inspiration to those who prize logic and common sense
