Democratic Stability in an Age of Crisis Agnes Cornell,Jørgen Møller,Svend-Erik Skaaning,2020-04-15 The interwar period has left a deep impression on later generations This was an age of crises where representative democracy itself a relatively recent political invention seemed unable to cope with the challenges that confronted it Against the backdrop of the economic crisis that began in 2008 and the rise of populist parties a new body of scholarship frequently invoked by the media has used interwar political developments to warn that even long established Western democracies are fragile Democratic Stability in an Age of Crisis challenges this interwar analogy based on the fact that a relatively large number of interwar democracies were able to survive the recurrent crises of the 1920s and 1930s The main aim of this book is to understand the striking resilience of these democracies and how they differed from the many democracies that broke down in the same period The authors advance an explanation that emphasizes the importance of democratic legacies and the strength of the associational landscape i e organized civil society and institutionalized political parties Moreover they underline that these factors were themselves associated with a set of deeper structural conditions which on the eve of the interwar period had brought about different political pathways The authors empirical strategy consists of a combination of comparative analyses of all interwar

democratic spells and illustrative case studies The book's main takeaway point is that the interwar period shows how resilient democracy is once it has had time to consolidate On this basis recent warnings about the fragility of contemporary democracies in Western Europe and North America seem exaggerated or at least that they cannot be sustained by interwar evidence Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterized by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Susan Scarrow Chair of the Department of Political Science University of Houston and Jonathan Slapin Professor Department of Political Science University of Zurich

The Authoritarian Divide Orçun Selçuk, 2024-07-15 In the context of the global decline of democracy The Authoritarian Divide analyzes the tactics that populist leaders in Turkey Venezuela and Ecuador have used to polarize their countries Political polarization is traditionally viewed as the result of competing left right ideologies In The Authoritarian Divide Orçun Selçuk argues that regardless of ideology polarization is driven by dominant populist leaders who deliberately divide constituents by cultivating a dichotomy of inclusion and exclusion This practice known as affective leader polarization stymies compromise and undermines the democratic process Drawing on multiple qualitative and quantitative methodologies for support as well as content from propaganda media such as public speeches Muhtar Meetings Al Presidente and Enlace Ciudadano Selçuk details and analyzes the tactics used by three well known populist leaders to fuel affective leader polarization Recep Tayyip Erdoğan in Turkey Hugo Chávez in Venezuela and Rafael Correa in Ecuador Selçuk's work provides a rubric for a better understanding of and potential defense against the rise in polarizing populism across the globe
