All over the world, economic inclusion has risen to the top of the development discourse. A well-performing education system is central to achieving inclusive development, but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased, but quality remains low, with weaknesses in governance comprising an important part of the explanation. *The Politics and Governance of Basic Education* explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making progress, combining practical steps to achieve incremental gains to re-orient the system towards learning. **Routledge Handbook of Public Policy in**

**Africa** Gedion Onyango, 2021-12-30 This Handbook provides an authoritative and foundational disciplinary overview of African Public Policy and a comprehensive examination of the practicalities of policy analysis, policymaking processes, implementation, and administration in Africa today. The book assembles a multidisciplinary team of distinguished and upcoming Africanist scholars, practitioners, researchers, and policy experts working inside and outside Africa to analyse the historical and emerging policy issues in 21st-century Africa. While mostly attentive to comparative public policy in Africa, this book attempts to address some of the following pertinent questions: How can public policy be understood and taught in Africa? How does policymaking occur in unstable political contexts or in states under pressure? Has the democratisation of governing systems improved policy processes in Africa? How have recent transformations such as technological proliferation in Africa impacted public policy processes? What are the underlying challenges and potential policy paths for Africa going forward? The contributions examine an interplay of prevailing institutional, political, structural challenges and opportunities for policy.
