

The background of the cover is a high-magnification, false-color micrograph of a silicon microchip die. The die is rectangular and densely packed with intricate circuit patterns. Various regions are highlighted in different colors: bright green for some functional blocks, deep red for others, and purple/blue for peripheral areas. A network of fine, light-colored lines represents the interconnects across the surface. The overall perspective is slightly angled, giving a three-dimensional feel to the two-dimensional image.
