The Politics of Inclusive Development Judith A. Teichman,2016-04-08 This book investigates the political conditions and policies most likely to bring about progress toward inclusive development drawing on in depth analyses of four cases studies with distinct development trajectories Mexico Indonesia Chile and South Korea While exclusion and differential inclusion have long been features of development in the Global South economic globalization has introduced new forms with which Global South countries must grapple The book highlights the main policy drawbacks of most official approaches neglect of the need to enhance the role and capacity of states the focus on certain types of poverty alleviation strategies and the tendency to disregard the need for productive employment generating activities and rural development Neglect of issues of power and politics however is the most glaring inadequacy Teichman argues that making progress toward inclusive development is primarily a political struggle It requires a committed leadership with broadly based societal support an inclusive development coalition which includes usually small but politically important middle classes

Heffron,2016-04-08 This landmark book offers a comprehensive analysis of how development approaches have evolved since World War II examining and also evaluating the succession of theories doctrines and practices that have been formulated and applied in the Third World and beyond Covering all developing regions the book offers an integrated approach for considering the entwined aspects of development governance economics foreign assistance civil society and the military With reference to carefully chosen case studies the authors offer distinctive explanations for why development approaches fall short and systematically relate the evolution of development thinking to current challenges identifying the strengths and weaknesses of key institutions and the clashes of institutional interests that have distorted otherwise sound doctrines and negatively affected development practice In identifying the dynamics that account for shortcomings in past development attempts and recommending a better integration of doctrines across the entire range of inter connected development fronts the book points to how development practice may be improved to better advance human dignity

Economic Roots of Conflict and Cooperation in Africa W. Ascher,N. Mirovitskaya,2013-11-07 This book combines

overviews of the nature and causes of inter group violence in North Africa and sub Saharan Africa with a collection of country case studies Both the overview chapter and the case studies trace how economic policy initiatives and consequent changes in the roles and statuses of various groups shape conflict or cooperation *Rioting for Representation* Risa J. Toha,2021-11-04 Ethnic riots are a costly and all too common occurrence during political transitions in multi ethnic settings Why do ethnic riots occur in certain parts of a country and not others How does violence eventually decline Drawing on rich case studies and quantitative evidence from Indonesia between 1990 and 2012 this book argues that patterns of ethnic rioting are not inevitably driven by inter group animosity weakness of state capacity or local demographic composition Rather local ethnic elites strategically use violence to leverage their demands for political inclusion during political transition and that violence eventually declines as these demands are accommodated Toha breaks new ground in showing that particular political reforms increased political competition direct local elections and local administrative units partitioning in ethnically diverse contexts can ameliorate political exclusion and reduce overall levels of violence between groups
