

ZE'EV CHAFETS

**DEVIL'S
NIGHT
AND
OTHER
TRUE
TALES OF
DETROIT**

"Provocative... anyone... who wants to fathom the social calamity that is recent Detroit history, and what that may portend for other cities, will have to come to this book."
—*Washington Post*

Devils Night And Other True Tales Of Detroit

Kimberley Kinder

Devils Night And Other True Tales Of Detroit:

Devil's Night Ze'ev Chafets, 2013-09-03 A New York Times Notable Book On Devil's Night the night before Halloween some citizens of Detroit try to burn down their neighborhoods for an international audience of fire buffs This gripping and often heartbreaking tour of the Murder Capital of America often seems lit by those same fires But as a native Detroiter Ze'ev Chafets also shows us the city beneath the crime statistics its ecstatic storefront churches its fearful and embittered white suburbs its cops and criminals and the new breed of black officials who are determined to keep Detroit running in the midst of appalling dangers and indifference

The Diversity Machine Frederick R. Lynch, 2017-07-05 Diversity has become the turn of the century buzzword Republican and Democratic leaders ritually chant diversity is our strength and corporate CEOs talk about the need to create a workforce that looks like America Most corporate mission statements now contain a clause on valuing differences and millions of employees have completed or soon will undergo some sort of diversity training Where did all this come from and why Who created diversity programs How do they differ How effective are these policies Can they do more harm than good in organizations and in the wider society During the past decade sociologist Frederick R Lynch studied the rise of a social policy movement that has successfully moved multiculturalism from universities and foundations into the courts mass media and the American workplace The new diversity policies are future oriented and market driven eclipsing old affirmative action debates about overcoming past discrimination against blacks Based on more than six years of field research and hundreds of interviews Lynch tracks the development and impact of different forms of diversity policies at dozens of consultant gatherings in the business and professional literature and through in depth case studies such as the Los Angeles Sheriff's Department and the University of Michigan Ann Arbor He profiles the major consultants who have powered the diversity machine analyzes the benefits and drawbacks of various approaches to workplace diversity and provides numerous you are there samples of workshops seminars and conferences The book is written for the general reader interested in public policy issues social scientists and others interested in the origins and consequences of workplace diversity policies

The Voice of Violence Joel P. Rhodes, 2001-04-30 The tide of 1960s political upheaval while mistaken at the time by some as a unified assault against America carried out by revolutionaries at home and abroad was actually hundreds of locally constructed expressions of political discourse reflecting the influences of race class gender and local conditions on each unique group of practitioners This is a comparative study of how radicals at the local level staged displayed and ultimately narrated symbolic acts of performative violence against the symbols of the American system The term performative violence refers to a method of public protest whereby participants create the conditions in which their violent actions become a political text a powerful symbol with a strong historical precedent Recognizing the textuality of history this interdisciplinary examination deconstructs the performative violence within its historically specific and socially constructed contexts using four representative case histories of late 1960s and early 1970s activism These are the African

American rioters in Kansas City the Black Panther Party in Detroit campus radicals at Kansas State University and activists at the University of Kansas Rather than focusing on the major clashes of the Vietnam era this book contributes to recent scholarship on the 1960s which has attempted to offer a more textured analysis of the era's activism particularly its political violence based on more local studies

The Politics of Prudence Russell Kirk, 2014-04-08 In this classic title Kirk outlines ten principles of conservative thought summarizes ten vital conservative books and offers brief accounts of ten eminent internationally important conservatives This book written by the founder of modern conservatism in America reflects several decades of learning travel and practical politics

The Radical Bookstore Kimberley Kinder, 2021-03-16 Examines how radical bookstores and similar spaces serve as launching pads for social movements How does social change happen It requires an identified problem an impassioned and committed group a catalyst and a plan In this deeply researched consideration of seventy seven stores and establishments Kimberley Kinder argues that activists also need autonomous space for organizing and that these spaces are made not found She explores the remarkably enduring presence of radical bookstores in America and how they provide infrastructure for organizing gathering places retail offerings that draw new people into what she calls counterspaces Kinder focuses on brick and mortar venues where owners approach their businesses primarily as social movement tools These may be bookstores infoshops libraries knowledge cafes community centers publishing collectives thrift stores or art installations They are run by activist entrepreneurs who create centers for organizing and selling books to pay the rent These spaces allow radical and contentious ideas to be explored and percolate through to actual social movements and serve as crucibles for activists to challenge capitalism imperialism white privilege patriarchy and homophobia They also exist within a central paradox participating in the marketplace creates tensions contradictions and shortfalls Activist retail does not end capitalism collective ownership does not enable a retreat from civic requirements like zoning and donations no matter how generous do not offset the enormous power of corporations and governments In this timely and relevant book Kinder presents a necessary novel and apt analysis of the role these retail spaces play in radical organizing one that demonstrates how such durable hubs manage to persist often for decades between the spikes of public protest

The Antioch Review John Donald Kingsley, 1991

Forthcoming Books Rose Army, 1992

Embracing the Track of Phrase: An Emotional Symphony within **Devils Night And Other True Tales Of Detroit**

In some sort of used by screens and the ceaseless chatter of fast communication, the melodic splendor and emotional symphony produced by the prepared word often diminish into the back ground, eclipsed by the persistent sound and disturbances that permeate our lives. Nevertheless, nestled within the pages of **Devils Night And Other True Tales Of Detroit** a marvelous fictional treasure filled with natural thoughts, lies an immersive symphony waiting to be embraced. Crafted by a wonderful musician of language, this interesting masterpiece conducts readers on an emotional journey, well unraveling the concealed tunes and profound affect resonating within each cautiously constructed phrase. Within the depths of the poignant evaluation, we can discover the book is main harmonies, analyze its enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
