**Colonialism in Question** Frederick Cooper,2005-06-06 Probably the most important historian of Africa currently writing in the English language His intellectual reach and ambition have even taken influence far beyond African studies as such and he has become one of the major voices contributing to debates over empire colonialism and their aftermaths This book is a call to reinvigorate the critical way in which history can be written Cooper takes on many of the standard beliefs passing as postcolonial theory and breathes fresh air onto them Michael Watts Director of the Institute of International Studies Berkeley This is a very much needed book on Africa on intellectual artisanship and on engagement in emancipatory projects Drawing on his enormous erudition in colonial history Cooper brings together an intellectual and a moral political argument against a series of linked developments that privilege taking a stance and in favor of studying processes of struggle through engaged scholarship Jane I Guyer author of Marginal Gains **Colonialism in Question** Frederick Cooper,2005-06-06 In this closely integrated collection of essays on colonialism in world history Frederick Cooper raises crucial questions about concepts relevant to a wide range of issues in the social sciences and humanities including identity globalization and modernity Rather than portray the past two centuries as the inevitable movement from empire to nation state Cooper places nationalism within a much wider range of imperial and diasporic imaginations of rulers and ruled alike well into the twentieth century He addresses both the insights and the blind spots of colonial studies in an effort to get beyond the tendency in the field to focus on a generic colonialism located sometime between 1492 and the 1960s and somewhere in the West Broad ranging cogently argued and with a historical focus that moves from Africa to South Asia to Europe these essays most published here for the first time propose a fuller engagement in the give and take of history not least in the ways in which concepts usually attributed to Western universalism including citizenship and equality were defined and reconfigured by political mobilizations in colonial contexts *The Colonial Past in History Textbooks* Karel Van Nieuwenhuyse,Joaquim Pires Valentim,2018-05-01 This book examines the evolving representations of the colonial past from the mid 19th century up to decolonization in the 1960s and 70s the so called era of Modern Imperialism in post war history textbooks from across the world The aim of the book is to examine the evolving outlook of colonial representations in history education and the underpinning explanations for the specific outlook in different former colonizer and colonized countries to be found in collective memory popular historical culture social representations identity building processes and the state of historical knowledge within academia The approach of the book is novel and innovative in different ways First of all given the complexity of the research an original interdisciplinary approach has been implemented which brings together historians history educators and social psychologists to examine representations of colonialism in history education in different countries around the world while drawing on different theoretical frameworks Secondly given the interest in the interplay between collective memory popular historical culture social representations and the state of historical knowledge within

academia a diachronic approach is implemented examining the evolving representations of the colonial past and connecting them to developments within society at large and academia This will allow for a deeper understanding of the processes under examination Thirdly studies from various corners of the world are included in the book More specifically the project includes research from three categories of countries former colonizer countries including England Spain Italy France Portugal and Belgium countries having been both colonized and colonizer Chile and former colonized countries including Zimbabwe Malta and Mozambique This selection allows pairing up the countries under review as former colonizing colonized ones for instance Portugal Mozambique United Kingdom Malta allowing for an in depth comparison between the countries involved Before reaching the research core three introductory chapters outline three general issues The book starts with addressing the different approaches and epistemological underpinnings history and social psychology as academic disciplines hold In a second chapter evolutions within international academic colonial historiography are analyzed with a special focus on the recent development of New Imperial History A third chapter analyses history textbooks as cultural tools and political means of transmitting historical knowledge and representations across generations The next ten chapters form the core of the book in which evolving representations of colonial history from mid 19th century until decolonization in the 1960s and 1970s are examined explained and reflected upon for the above mentioned countries This is done through a history textbook analysis in a diachronic perspective For some countries the analysis dates back to textbooks published after the Second World War for other countries the focus will be more limited in time The research presented is done by historians and history educators as well as by social psychologists In a concluding chapter an overall overview is presented in which similarities and differences throughout the case studies are identified interpreted and reflected upon **Gender and Colonialism** Lorena Rizzo,2012 Deals with colonialism in a Namibian periphery and considers both the German colonial period as well as South African rule in the country The main is to develop an understanding of the dynamics and vectors of change in the Kaoko s African societies gradually being placed under colonial rule With a focus on socio economic processes the thesis explores the continuous reconstitution of gender roles and relations and anchors its argument on an integrated analysis of archival written and visual sources as well as on oral knowledge African Thoughts on Colonial and Neo-Colonial Worlds Anaïs Angelo,Paulina Aroch-Fugellie,Lena Dallywater,Lutz Diegner,Myra Ann Houser,Janine Kläge,Sara Marzagora,Felix Müller,Arno Sonderegger,Ninja Steinbach-Hüther,Joanna Tegnerowicz,2015-10-16 This book shows the many facets of African engagements with the world It starts from the premise that current global asymmetries ascribing Africa to a marginalized position are the effects of colonial and imperial pasts still lingering on The decolonization process of the post war structure which privileges the West in both political and economic terms While new dependencies emerged several old bonds were maintained and continue to influence African affairs quite strikingly It is appropriate then to call these continued unequal relations between Africa and the West frankly neo colonial This designation applies all the more as the post colonial
