Conflict Free Rule for Combining Evidences Frederic Dambreville, Recent works have investigated the problem of the conflict redistribution in the fusion rules of evidence theories As a consequence of these works many new rules have been proposed Now there is not a clear theoretical criterion for a choice of a rule instead another The present chapter proposes a new theoretically grounded rule based on a new concept of sensor independence This new rule avoids the conflict redistribution by an adaptive combination of the beliefs Both the logical grounds and the algorithmic implementation are considered

Food Combining Basics Sophie Carter, AI, 2025-02-20 Food Combining Basics explores the impact of food combinations on digestion and nutrient absorption advocating for mindful food pairings to optimize digestive health based on scientific research It examines how different foods interact within your digestive system affecting processes like enzyme activity and gastric pH potentially leading to bloating or improved nutrient uptake For example understanding how alkaline conditions support carbohydrate digestion versus the acidic environment needed for protein digestion is key The book argues that strategic food combining can alleviate digestive distress challenging the eat everything in moderation approach It begins with digestion basics and progresses through carbohydrate protein and fat digestion culminating in practical guidelines and meal planning This approach differentiates itself by grounding food combining principles in biology and nutritional science rather than anecdotal evidence Readers will gain insights into digestive processes and learn how to apply food combining strategies such as experimenting with meal plans to observe individual responses By understanding these principles individuals can make informed dietary choices to improve their digestive well being

Glucuronic Acid Free and Combined Geoffrey Dutton, 2012-12-02 Glucuronic Acid Free and Combined Chemistry Biochemistry Pharmacology and Medicine focuses on the study of glucuronic acid particularly its physiological role in different fields Divided into three parts with nine chapters the book contains the literature of authors who have incessantly conducted research on this kind of acid The book starts with the discussion on the chemistry of free glucuronic acid and its derivatives and then discusses the nature characteristics and properties of glucuronides and other known conjugates The next part presents the occurrence and chemistry of glucuronic acid incorporated in animal plant and bacterial polysaccharides This presentation is followed by the discussions on the biosynthesis of glucuronic acid as UDPglucuronic acid and its relationship with simple glucuronides A summary of information of the enzymic hydrolysis of conjugates is then presented The succeeding chapters deal with the entry of glucuronic acid into general carbohydrate metabolism the incorporation of glucuronic acid with the polysaccharides of living tissues the pharmacological implications of glucuronic acid in drug detoxification and the isolation and identification of steroid glucuronides The book is a primary source of data for readers interested in studying the nature composition functions and uses of glucuronic acid
