## Classic Telescope Manuals:

*Classic Telescopes* Neil English, 2012-08-30 Classic telescopes are of interest to amateur astronomers for a variety of reasons There are the dedicated collectors but there are also many amateurs who love the nostalgia they inspire These telescopes feel different from any contemporary telescope and perhaps have a unique ability to reconnect the owner to a bygone age of craftsmanship This book takes a look at traditional telescopes built by the great instrument makers of the 18th and 19th centuries particularly the dynastic telescope makers including Dollond Alvan Clark Thomas Cooke Sons and Carl Zeiss Also included are lesser luminaries such as John Brashear John Calver William Wray Henry Fitz and William Henry Mogyey Classic Telescopes covers the key features of the telescopes designed by these manufacturers and shows how a heady combination of market trends instrument condition and pedigree will dictate their prices at auction Classic Telescopes also shows the reader how to find real bargains Interviews with top classic telescope collectors and users provide the best tips of prospecting for a genuine acquisition

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
