Classroom Organization and Control Jesse Brundage Sears, 1918 **Classroom Organization and Control (Classic Reprint)** Jesse Brundage Sears, 2017-09-17 Excerpt from Classroom Organization and Control The management of a school is a many sided problem lying roughly speaking between the intimate details of teaching method at the one extreme and the coarser adjustments of administration and supervision at the other As the term implies the task is essentially an executive one the manager that is the teacher or the principal being a director of the activities of children in their pursuit of an education The functions of this teacher executive are not only to direct she must also formulate much of the policy she is to execute To do this she must have some knowledge of the essential working principles upon which organization and management rest These principles have been set forth in this book not so much as a theoretical treatise but rather by showing as concretely as possible how such principles are to operate among the plain practical facts which are to be dealt with in actual school situations It is assumed that in managing a school the first step is a clear aim the second carefully formulated plans the third execution the fourth evaluation of results Thus by implication it is demanded of school managers that they shall take a critical attitude toward their work and dismiss the idea that experience is all that counts in preparation About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The United States Catalog; Books in Print January 1, 1912** Marion Effie Potter, 1921 **The United States Catalog** , 1921 Books in Print , 1994 The United States Catalog Mary Burnham, Carol Hurd, 1928 **El-Hi Textbooks in Print** , 1984 **Classroom Control (RLE Edu L)** Martyn Denscombe, 2012-05-04 Survival as a school teacher depends on an ability to achieve classroom control In the years since this book was first published little has changed in this respect Classroom control continues to lie at the heart of competent teaching Teachers know it pupils know it They know it implicitly because they experience it as a normal part of their daily lives in schools But in this book the author stands back from our everyday knowledge about how things work in classrooms to ask what control actually consists of What is it How is it recognized How is it challenged by pupils How is done by teachers How is it negotiated Drawing on extensive ethnographic fieldwork in three large secondary schools in England Martyn Denscombe explores the meaning of classroom control He looks at the influence of teacher training and the role of school organization in establishing expectations about control and then shows how control is played out through the interaction of teachers and pupils in class His analysis travels well across the many contexts in which teaching occurs and provides an

illuminating insight into the work of teaching and the nature of classroom life His evidence is drawn from ethnographic fieldwork in three schools in England and secondary sources covering the phenomenon of classroom control in the UK USA and Australia Resources in Education ,2001-10 *1985 Proceedings Federal Acquisition Research Symposium* ,1985
