Claude Lévi-Strauss The Father Of Modern Anthropology:

Claude Lévi-Strauss Patrick Wilcken, 2010-10-07 When Claude Lévi-Strauss passed away in 2009 at age 100 France celebrated the life and contributions of not only a preeminent anthropologist but one of the defining intellectuals of the 20th century Just as Freud had shaken up the antiquarian discipline of psychiatry so had Lévi-Strauss revolutionized anthropology transforming it from the colonial era study of exotic tribes to one consumed with fundamental questions about the nature of humanity and civilization itself Remarkably there has never been a biography in English of the enigmatic Claude Lévi-Strauss Drawing on a welter of original research and interviews with the anthropologist Patrick Wilcken's Claude Lévi-Strauss fills this void In rich detail Wilcken recreates Lévi-Strauss's peripatetic life his groundbreaking fieldwork in some of the remotest reaches of the Amazon in the 1930s his years as a Jew in Nazi occupied France and an emigré in wartime New York and his return to Paris in the late 1940s where he clashed with Jean-Paul Sartre and fundamentally influenced fellow postwar thinkers from Jacques Lacan to Michel Foucault and Roland Barthes It was in France that structuralism the school of thought he founded first took hold creating waves far beyond the field of anthropology In his heyday Lévi-Strauss was both a hero to contemporary intellectuals and an international celebrity In Claude Lévi-Strauss Wilcken gives the reader a fascinating intellectual tour of the anthropologist's landmark works *Tristes Tropiques* his most famous book a literary meditation on his travels and fieldwork *The Savage Mind* which showed that primitive people are driven by the same intellectual curiosities as their Western counterparts and finally his monumental four volume *Mythologiques* a study of the universal structures of native mythology in the Americas In the years that Lévi-Strauss published these pioneering works Wilcken observes tribal societies seemed to hold the answers to the most profound questions about the human mind Following the great anthropologist from São Paulo to the Brazilian interior and from New York to Paris Patrick Wilcken's Claude Lévi-Strauss is both an evocative journey and an intellectual biography of one of the 20th century's most influential minds **Claude**

Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader s Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader s Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion **Rock Art and the Wild Mind** Ingrid Fuglestad, 2017-12-22 Rock Art and the Wild Mind presents a study of Mesolithic rock art on the Scandinavian peninsula including the large rock art sites

in Alta N mforfen and Vingen Hunters rock art of this area despite local styles bears a strong commonality in what it depicts most often terrestrial big game in diverse confrontations with the human realm The various types of compositions are defined as visual thematizations of the enigmatic relationship between humans and big game animals These thematizations here defined as motemes are explained as being products of the Mesolithic mind in action observed through repetitions variations and transformations of a number of defined motemes Through a transformational logic the transition from animic to totemic rock art is observed Totemic rock art reaches a peak during the final stages of the Late Mesolithic and it is suggested that this can be interpreted as representing an increasing focus on human society towards the end of this era The move from animism to totemism is explained as being part of the overall social development on the Scandinavian peninsula This book will be of interest to students of rock art generally and scholars working on the historical developments of prehistoric hunter gatherers in northern Europe It will also appeal to students and academics in the fields of art history and aesthetics and to those interested in the work of L vi Strauss
