[Aviation English - A global perspective](#) Patricia Tosqui-Lucks, Juliana de Castro Santana, 2022-10-21

This e-book brings together 13 chapters written by aviation English researchers and practitioners settled in six different countries representing institutions and universities from around the globe. This e-book is an offshoot of the 8th GEIA Seminar that counts on the collaboration of GEIA and ICAEA researchers as well as guest speakers. It brings together thirteen chapters focused on aviation language description, teaching and assessment, written by practitioners from several institutions around the globe. One of our guests and a keynote speaker, Prof. Eric Friginal, added the excellent contribution of his graduate students from Georgia State University in the USA and kindly wrote the Preface. Regarding its content, this e-book has been divided into three parts according to GEIA's areas of research: language description and analysis, aeronautical English teaching and assessment practices. The studies collected in this e-book offer us enriching and enlightening discussions that support and promote a better understanding of some key features underlying aviation English language teaching and assessment practices. We are very pleased to make part of this work. It goes without saying the importance of this e-book for the aviation English field and community. This international publication, besides collecting the studies and work experiences of renowned researchers, has also contributed to strengthen the enriching partnership between GEIA members and other researchers. The fact of having been published as an e-book will certainly benefit its circulation and the spreading awareness of aviation English challenges, updates and findings. One of our goals is to spread the news by making this ESP e-book free for download by as many people and institutions as possible worldwide. Those who place great weight on aeronautical English teaching and assessment

practices are aware of the interwoven relation among operational issues communication and safety That s why we believe the discussions and analysis carried out throughout this book are so relevant and should reach international communities and organizations in all parts of the globe Enjoy your reading Patricia Tosqui Lucks Juliana de Castro Santana *Air Cops* Billy Robbins,2006-11 Written by a retired air traffic controller *Air Cops A Personal History of Air Traffic Control* takes a closer look at this adrenaline pumping occupation Author Billy D Robbins draws on his experience in this profession to describe navigation systems past and present Robbins started his training as a military control tower operator in the U S Air Force in 1950 His first job began during the Korean War at the March Air Force Base in southern California It was there that he learned the daily activities of running a control tower not all of them pleasant Boredom coupled with spurts of intense stress created a difficult working environment one that not everyone could handle Robbins however thrived on the life of an air traffic controller and continued in the aviation profession for the next forty years From the tense moments of dealing with airplane hijackers in Florida to the introduction of automated computer systems Robbins s research and experience produces a sometimes hilarious sometimes tragic view of the air traffic control profession **Flightpath: Aviation English for Pilots and ATCOs Student's Book with Audio CDs (3) and DVD** Philip Shawcross,2011-07-14 Flightpath is the definitive course for pilots and Air Traffic Controllers who need an ICAO4 level of English to work in the industry Flightpath is the only Aviation English course to offer a thorough grounding in the full range of communication skills needed by aviation professionals to communicate in non routine situations With regular focus on ICAO criteria learners are given full support in reaching industry standards including case studies analysis of their own communication skills exposure to authentic in flight communication and communicative tasks Flightpath is the most accurate preparation course available for any ICAO4 language test and includes authentic industry training video Flightpath has been reviewed and endorsed by a panel of leading aviation communication and safety professionals Cleared for Takeoff Liz Mariner,2012 **Express Series English for Aviation** Sue Ellis,Terence Gerighty,2015-10-08 Please note that the Print Replica PDF digital version does not contain the audio English for Aviation is part of the EXPRESS SERIES It has been designed to help students reach ICAO Operational Level 4 It can be used to supplement a regular coursebook on its own as a stand alone intensive specialist course or for self study English for Aviation will help pilots and air traffic controllers with standard phraseology as well as improve plain English in the skills areas specified by ICAO *The Routledge Handbook of Corpus Approaches to Discourse Analysis* Eric Friginal,Jack A.
