Hard Places Richard V. Francaviglia,1997-09 Working with the premise that there are much meaning and value in the repelling beauty of mining landscapes Richard Francaviglia identifies the visual clues that indicate an area has been mined and tells us how to read them showing the interconnections among all of America s major mining districts With a style as bold as the landscape he reads and with photographs to match he interprets the major forces that have shaped the

architecture design and topography of mining areas Covering many different types of mining and mining locations he concludes that mining landscapes have come to symbolize the turmoil between what our society elects to view as two opposing forces culture and nature
