Climate Justice Ethics Energy And Public Policy:

Climate Justice James B. Martin-Schramm, 2010 While searching for a model of preaching that is apt for our postmodern moment Kay Northcutt respectfully eschews earlier models and suggests the what of preaching should consist in spiritual formation or the practice of spiritual direction Taking an evocative rather than how to approach Northcutt notes the gaps created by earlier models and makes a case not only for framing preaching as an attractive art but also for understanding the preacher's authority as religious in nature The author provides readers with a new paradigm for developing their own homiletical discipline

Climate Justice, Climate Hope Michael Malcom, Abby Mohaupt, 2025-10-14 Fruitful faithful action toward climate justice creates more ecological equitable democratic forms of economic life With stories liturgies humor and straight talk Malcom and Mohaupt invite readers to build knowledge skills global companionship and spiritual courage for action at the intersection of climate economy and racial justice

T&T Clark Handbook of Christian Theology and Climate Change Hilda P. Koster, Ernst M. Conradie, 2019-12-12 The T these essays are critically engaged by respondents situated in other geographic regions minority communities non Christian traditions or non theological disciplines Structured in seven main parts the handbook explores 1 the need for collaboration with disciplines outside of Christian theology to address climate change 2 the need to find common moral ground for such collaboration 3 the difficulties posed by collaborating with other Christian traditions from within 4 the questions that emerge from such collaboration for understanding the story of God's work and 5 God's identity and character 6 the implications of such collaboration for ecclesial praxis and 7 concluding reflections examining whether this volume does justice to issues of race gender class other animals religious diversity geographical divides and carbon mitigation This rich ecumenical cross cultural conversation provides a comprehensive and in depth engagement with the theological and moral challenges raised by anthropogenic climate change

Environmental Justice as Social Work Practice Christina L. Erickson, 2018-05-30 This book places environmental justice as central to social work practice Using the phases of practice theory ethics and values are integrated with distinct chapters on micro mezzo and macro practice Stories case studies and boxed sections highlight organizations and people who bridge the human and environmental justice divide Critical thinking and learning activities provide direction for course assignments and activities

Planetary Solidarity Grace Ji-Sun Kim, Hilda P. Koster, 2017-08-23 Planetary Solidarity brings together leading Latina womanist Asian American Anglican American South American Asian European and African woman theologians on the issues of doctrine women and climate justice Because women make up the majority of the world's poor and tend to be more dependent on natural resources for their livelihoods and survival they are more vulnerable when it comes to climate related changes and catastrophes Representing a subfield of feminist theology that uses doctrine as interlocutor this book asks how Christian doctrine might address the interconnected suffering of women and the earth in an age of climate change While doctrine has often stifled change it also forms the thread that weaves Christian communities

together Drawing on postcolonial ecofeminist womanist analysis and representing different ecclesial and denominational traditions contributors use doctrine to envision possibilities for a deep solidarity with the earth and one another while addressing the intersection of gender race class and ethnicity The book is organized around the following doctrines creation the triune God anthropology sin incarnation redemption the Holy Spirit ecclesiology and eschatology **Climate Justice** S. M. Ravi Kanbur, Henry Shue, 2019 Climate justice requires sharing the burdens and benefits of climate change and its resolution equitably and fairly This book brings together economic and philosophical discourse on climate justice in order to support public policy dialogue on the topic *Reenvisioning Christian Ethics* Darryl W. Stephens, 2020-12-29 Christian ethics is a wide and varied field so diverse are the methods and approaches theological perspectives and starting points and scopes of inquiry and purposes dare we even call it a discipline that the field is rarely considered as a whole Christian ethics includes historical descriptive critical constructive and applied projects on countless topics Lending creative energy to this field of study are a range of partner disciplines including most prominently theology philosophy and sociology each containing multiple schools themselves To envision the entire field of Christian ethics is a difficult task to reenvision the entire field may perhaps be impossible for one person Thus this publication includes original research by multiple scholars each offering a distinct perspective from their primary partner discipline Chapters include Roman Catholic and Protestant voices from Europe Asia and North America In aggregate these writings contribute to a composite reenvisioning of Christian ethics refracting our collective vision through the prisms of diverse academic and methodological perspectives in this vast field of inquiry study and practice *Eco-Reformation* Lisa E. Dahill, Jim B. Martin-Schramm, 2016-10-31 In 2017 Christians around the world will mark the five hundredth anniversary of the Reformation In the midst of many appeals for reformation today a growing number of theologians scholars and activists around the world believe Reformation celebrations in 2017 and beyond need to focus now on the urgent need for an Eco Reformation The rise of industrial fossil fuel driven capitalism and the explosive growth in human population endanger the fundamental planetary life support systems on which life as we know it has evolved The collective impact of human production consumption and reproduction is undermining the ecological systems that support human life on Earth If human beings do not reform their relationship with God's creation unspeakable suffering will befall many especially the weakest and most vulnerable among all species The conviction at the heart of this collection of essays is that a gospel call for ecological justice belongs at the heart of the five hundredth anniversary observance of the Reformation in 2017 and as a if not the central dimension of Christian conversion faith and practice into the foreseeable future Like Luther's Ninety Five Theses this volume brings together critical biblical pastoral theological historical and ethical perspectives that constructively advance the vision of a socially and ecologically flourishing Earth

Ecological Footprints Dawn M. Nothwehr, 2012-11-01 The Franciscan Vision offers a powerful antidote to the moral malaise that prevents ordinary Christians from making the necessary choices to live more simply and share the world's goods

more equitably This is the driving conviction behind Ecological Footprints Dawn M Nothwehr unfolds the theological spiritual and ethical treasure trove of Christianity especially as it has been developed and lived in Franciscan theology and tradition as it relates to our efforts to achieve sustainable living She succeeds admirably in presenting it all in a style that makes this book both accessible and compelling to no specialist readers

International Solutions to Sustainable Energy, Policies and Applications Stephen A. Roosa, 2020-11-26 Offering an in depth examination into sustainable energy sources applications technologies and policies this book provides real world examples of ways to achieve important sustainability goals Themes include program assessment energy efficiency renewables clean energy and approaches to carbon reduction Included are a compiled set of chapters discussing the various international strategies and policies being planned and implemented to reduce energy use impact carbon emissions and shift towards alternative energy sources Taking an international perspective contributors from the U S Canada Trinidad and Tobago Peru Hungary Spain Iran Ukraine Jordan the UAE Nigeria South Africa India China and Korea offer their views of energy issues and provide detailed solutions These can be broadly applied by engineers scientists energy managers policy experts and decision makers to today s critical energy problems
