Schmid, 2011-01-13 Climbing Philosophy for Everyone presents a collection of intellectually stimulating new essays that address the philosophical issues relating to risk ethics and other aspects of climbing that are of interest to everyone from novice climbers to seasoned mountaineers Represents the first collection of essays to exclusively address the many philosophical aspects of climbing Includes essays that challenge commonly accepted views of climbing and climbing ethics Written accessibly this book will appeal to everyone from novice climbers to seasoned mountaineers Includes a foreword written by Hans Florine Shortlisted for the Boardman Tasker Prize for Mountain Literature 2010 *The Bloomsbury Companion to the Philosophy of Sport* Cesar R. Torres, 2014-05-16 The Bloomsbury Companion to the Philosophy of Sport features specially commissioned essays from a team of leading international scholars The book by providing an overview of the advances in the philosophical understanding of sport and related practices serves as a measure of the development of the philosophy of sport but it also constitutes an expression of the discipline s state of the art The book includes a critical analysis of the historical development of philosophic ideas about sport three essays on the research methods typically used by sport philosophers twelve essays that address vital issues at the forefront of key research areas as well as four essays on topics of future disciplinary concern The book also includes a glossary of key terms and concepts an essay on resources available to researchers and practitioners an essay on careers opportunities in the discipline and an extensive annotated bibliography of key literature The Limits of Art Jiri Benovsky, 2020-08-18 This open access book is about exploring interesting borderline cases of art It discusses the cases of gustatory and olfactory artworks focusing on food proprioceptive artworks dance martial arts and rock climbing qua proprioceptive experiences intellectual artworks philosophical and scientific theories as well as the vague limits between painting and photography The book focuses on the author s research about what counts as art and what does not as well as on the nature of these limits Overall the author defends a very inclusive view extending the limits of art and he argues for its virtues Some of the limits discussed concern our senses our different perceptual modalities some concern vagueness and fuzzy boundaries between different types of works of art some concern the amount of human intention and intervention in the process of creation of an artwork and some concern the border between art and science In these various ways by

understanding better such borderline cases Benovsky suggests that we get a better grip on an understanding of the nature of art

Holism and the Cultivation of Excellence in Sports and Performance Jesus Ilundain-Agurruza, 2018-02-02
Skillful Striving is a multi methodological and cross cultural examination of how we flourish holistically through performative endeavors e g sports martial and performing arts Relying primarily on sport philosophy value theory phenomenology philosophy of mind pragmatism and East Asian philosophies Japanese and Chinese it espouses thick holism Concerned with an integrative bodymind gradually achieved through performance that aims at excellence the process of self cultivation proper of thick holism relies on an ecologically rich epistemic landscape where skills are coupled to virtues in pragmatic contexts Ultimately this process results in admirable performances and exemplary character Japanese d practices of self cultivation are prominent modes and models of such flourishing A holistic and radically enactive approach that advances contentless capacities in lieu of representations transparently accounts for the kind of action that characterizes such expert performances Importantly these performer centered endeavors unfold within communities that foster the cultivation of our abilities as lifelong quests for human excellence Each chapter can be read independently but still forms part of a continuous argumentative and narrative thread This book was previously published as a special issue of Sport Ethics and Philosophy

The Philosophical Review Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2011 An international journal of general philosophy Downward Bound Warren Harding, 1990 Being Extreme Bill Gutman, 2014-04-01 As fast paced as a freefall from a roaring airplane as thrilling as a towering jump off a ski slope Being Extreme is a fascinating examination of the adrenaline rush of extreme sports Here is a world where living life on the edge is the only option where you are only as good as your last jump and where one false move can take you out of the game permanently From mountain climbing and freestyle motocross to skydiving and snowboarding and beyond in the past decade the world of extreme sports has exploded onto the scene with daredevils attempting acts of athleticism that leave spectators awed and fearful Being Extreme explores the motivations and societal impulses behind these high risk lifestyles through interviews with professional athletes and recreational enthusiasts as well as with psychiatrists who seek to understand the motivation behind these Big T personalities Authors Gutman and Frederick also explore what heart stopping sports are around the next curve because in a world where the rush is everything everyone is always upping their game
